Area Livestock Men Being Urged to Use More Protein Feed to Save Grain

Jones County and area livestock raisers are being urged by United States Department of Agriculture authorities and other livestock leaders to use increased amounts of protein in livestock rations this season to save scarce grain, make fast gains with less feed, increase production and reduce costs.

Protein, scarce during war-time, now is relatively abundant and cheap compared with grains; and amounts of protein used in livestock rations should be increased to levels that will take full advantage of its amounts of cottonseed meal and grain-saving qualities. A larger 1947 cotton crop has made increased cake available for this purpose.

"Feeds and Feeding," standard livestock text, quotes feeding experiments showing that 100 pounds of cottonseed meal, in a balanced ration, are worth 287 pounds of corn for fattening steers. Five hundred to 600 pounds of corn are saved by 100 pounds of protein supplement in feeding pigs. Dairy cows fed restricted amounts of protein produced 22 to 50 per cent less milk and fat than those fed protein liberally.

In balanced work stock rations, one pound of protein replaces two pounds of grain; and idle work stock and brood mares on pasture may be fed economically on one to two pounds of cottonseed meal without grain.

Proteins save grain because they improve digestibility of all feed; stimulate milk and egg production; are necessary in growth, maintenance and body processes; and, when fed in excess of needs to balance rations, economically meet total energy and fattening requirements under today's conditions.

Grain may be almost entirely eliminated in many cases by proper use of roughages and protein concentrates, supplemented with minerals and, when necessary, with vitamin A. Pastures and range forage, supplemented with cottonseed meal, cake, pellets or cubes, and roughages, should produce much of the volume of meat and livestock products needed this season.

Beef steers on good grazing may be fattened satisfactorily by feeding four to six pounds of cottonseed meal or cake daily per head. In the feed lot three to five pounds of protein concentrate will balance full roughage and limited grain rations. Calves make quick, early gains on their mothers' milk, grazing and one to three pounds of protein concentrate. Brood cows need one to three pounds of protein concentrate daily to supplement grazing, stay in good condition and produce strong calves.

Dairy cows on good pasture need a mixture containing 13 to 15 per cent protein. A grain saving mixture is: 100 pounds of ground grain, 100 pounds of cottonseed meal and 200 pounds of hay, ground bundles or cottonseed hulls. To supply at least 20 per cent protein needed when cows are on poor pasture, increase the meal to 200 pounds.

Feeding adequate protein supplement, while limiting market weights to 200-225 pounds, is the best way to save grain in swine feeding. An excellent protein supplement for young pigs, bred sows and sows with pigs is: 40 pounds of cottonseed meal, 40 pounds of tankage or other animal protein, and 20 pounds of alfalfa leaf meal. This supplement may be self-fed, free choice, with grains to young pigs; and hand-fed to sows in a mixture of 20 per cent.

Pigs over 100 pounds in weight do well if self-fed grain and a protein supplement mixture of 60 pounds of cottonseed meal, 20 pounds of tankage and 20 pounds of alfalfa leaf meal. In hand feeding, use 20 per cent of the supplement and 80 per cent of ground grain, changing to 15 per cent of supplement in the mixture when pigs reach 175 pounds.

Two Methodists Attend Northwest District Rally

Dr. Will C. House and Joe A. Simpson, superintendent of the Sunday School, were in Lubbock Wednesday and Thursday to attend the rally of Northwest conference in the last phase of the "Crusade for Christ," a campaign to better Sunday School enrollment and attendance which Methodist Churches have been conducting for the past year.

Thursday they sat in on the called session of the Northwest Texas Conference.

Bishop Charles C. Seelman was chairman during these meetings and several prominent Methodist leaders were speakers on the program.

25,200 Bales Of Cotton Ginned Now

Census reports shows that 25,200 bales of cotton were ginned in Jones County from the 1947 crop prior to November 1 as compared with 7,451 bales ginned for the crop of 1946 at the same time.

Christmas Plans Being Considered By Local C. of C.

Entertainment committee of the Hamlin Chamber of Commerce was authorized to consider any suitable plans for opening the Christmas shopping season at the regular meeting held Tuesday morning. If any plans are made to mark the turning on of downtown lights and the Christmas season, it will probably be announced soon.

Reports were made to the board of directors by Clyde Angel who represented the local chamber at a meeting held in Lubbock recently in the interest of improved service by the West Texas Transportation Company Angel stated that representatives from Eastland to Lubbock were present and that a final meeting with the Railroad Commission would be held in Eastland or Austin. He urged cooperation of all merchants and travelers who use the bus lines in any way. Haskell Carter, the Hamlin director of the West Texas Chamber of Commerce, gave a brief report on the recent meeting of that group.

Tentative plans were also discussed for securing a speaker for the annual banquet and for a livestock tour just before the annual FFA stock show later in the winter.

Ed Lockhart Dies Suddenly In San Angelo

Ed Lockhart, formerly of Hamlin died suddenly in San Angelo Monday, November 10.

Mr. Lockhart was born in Arkansas 57 years ago. His parents died when he was very young, and he was reared by an aunt and uncle. He came to Texas in his youth and served overseas with an engineering battalion in World War I. He worked for West Texas Utilities as a linesman for over 25 years, but was seriously injured in a fall from a high line pole near Ozona in 1932. When he recovered sufficiently to work again, he was assigned to the watchman job for that company's plant near San Angelo. He became ill last February with influenza, developed pneumonia and was hospitalized until June, leaving him with a heart ailment which was the cause of his death.

He was married to Violet Crow of Hamlin in February, 1923. To this union were born three children: Edward Earle, who was killed in a truck accident in San Antonio on November 24, 1934; and two daughters, Miss Juandell Lockhart of Beeville and Mrs. J. L. Neff of San Antonio; two grandchildren, James Leslie and Catherine Cecilia Neff.

Mrs. Bill Johnson Dies at Holiday; Funeral Sunday

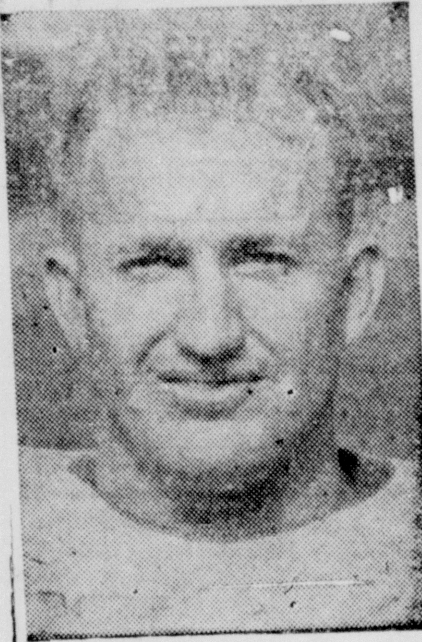

Mrs. Bill Johnson, 48, died Friday at noon in a Wichita Falls hospital after a very brief illness. She was taken to the hospital Thursday from her home in Holiday.

Mrs. Johnson, the former Cora Coble, had lived in Baylor County most of her life. Her mother, Mrs. John Holden, lives in Hamlin.

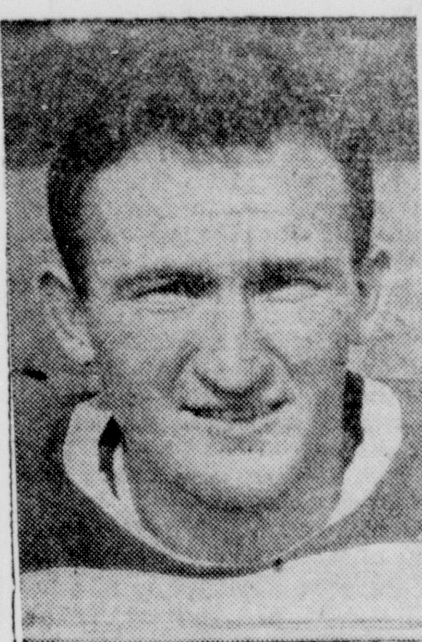

Funeral services were conducted Sunday afternoon at Holiday, with interment at Munday.

She is survived by her husband; two children, Mrs. Ferrel Walsh, Munday; and Mrs. Jack Miles, Vernon; one grandson, Billy Charles Walsh; one sister, Mrs. R. A. Green, Celotex; two brothers, Roy Coble, Colorado Springs, Colorado and James Holden, Gunter; and her mother, Mrs. John Holden.

Mr. and Mrs. Bob May and little daughter, Helen Byrd, of Colorado Springs visited his parents, Mr. and Mrs. M. P. May, Sunday afternoon.

Jack Ellison

Al Johnson

Former Pied Pipers Being Considered For All-Border Conference Laurels

"Cactus" Jack Ellison and Al Johnson, former stars for the Pied Pipers of Hamlin and who have for four years been mainstays for the purple and gold of the Hardin-Simmons University Cowboys of Abilene are being considered for All-Border Conference laurels.

Both Ellison and Johnson are seniors, with each having two Cowboy football letters to their credit, and a third assured. Since graduating from the freshman squad to the varsity in 1942, neither has played on a team losing a single conference game.

In fact, they have been defeated only twice in their varsity careers after winning three and losing three as freshmen. Both defeats were administered in the current season—teams opposing Hardin-Simmons by San Jose State, San Jose, California, 19-12 and Mississippi State, 27-7.

Since 1942 Johnson has been the brains of the Cowboy machine; calling signals, passing and punting, while Ellison has been starting left guard for the same number of years. Last season Johnson was co-captain with "Red" Cleveland while Ellison has been co-captain with "Bulldog" Cook this year.

Head Cowboy Coach Warren B. Woodson is high in his praise of both Hamlin lads. "With Johnson calling plays, I always feel perfectly safe. It's just about the same as feeling like I was out there quarterbacking myself," Woodson declared.

For Ellison, Woodson, along with every sports writer and radio announcer who has seen the Cowboys in action this year, has the highest praise possible for a lineman. "Few linemen ever get enough recognition," Woodson stated, "and in my opinion, Ellison has been greatly overlooked."

Although the scribes and announcers might not give as much attention to the linemen as the backs, enemy coaches never overlook the big bruisers in the forward wall. They know that the opposing linemen are the boys who will smack down their blockers and try to stop the ball carrier and coaches fielding this season as well as last have continually worried about the big, hard charging Cowboy line—particularly Ellison.

Although he weighs a neat 194 pounds, Ellison is fast like the wind in his native West Texas. He is usually the first man to reach the receivers on Cowboy punts and has

overhauled supposedly "loose" backs on several occasions to prevent Hardin-Simmons' goal line from being crossed.

Both Johnson and Ellison are all-round boys. In these days of specialists, when few men do more than a single thing in a game, such men as Ellison and Johnson are distinctive standouts as they remain on the field both an offense and defense. On offense, Ellison plays the linebacker's position, immediately behind right tackle, while Johnson usually plays in the secondary, about 15 yards behind left end.

In the offense department, Johnson has established records to be envied by any college player. Previous to the 1947 season, he had had only three passes intercepted in two seasons of play. Including the four interceptions of 1947, his record still stands as one of the best—seven interceptions in more than 200 attempted passes.

Due to the fact that he will allow himself to be thrown for a loss intentionally grounding a pass or taking an unnecessary chance on an interception, Johnson's net gains gained from rushing for the season stands at exactly 0. Counting actual runs made and times caught trying to pass, Johnson has gained 104 yards and lost 104 yards throughout the season.

Johnson has attempted 80 passes this season, completing 31 for 553 yards, a percentage of 387. The Cowboy's ace punter, Al's booming kicks have often pulled his team out of danger and occasionally placed the opposition in trouble down in the coffin corner. He has kicked 30 times for 1,185 yards, averaging 39.5 yards per effort. He has scored one touchdown on a quarterback sneak.

On November 29 the Cowboys will meet Texas Technological Red Raiders of Lubbock in a game heralded as the championship game of the Border loop. Hardin-Simmons has won four conference games to two for Tech. While resting this weekend, the Cowboys will be watching with great interest the Tech-New Mexico game Saturday.

If Tech loses Saturday, the Cowboys can lose one and still share the crown. If Tech wins and then beats Hardin-Simmons, the Ranchers will be out of the picture entirely. If H-SU wins over Tech, they must still get safely by twicebeaten Arizona State of Tempe in order to get away with a clear-cut championship.

Deer Hunters Bag Six Already

Hamlin's party of deer hunters had been very successful, bagging six up until Tuesday, according to reports brought back by Art Carmichael, who came home and brought two deer and returned to the hunt Wednesday.

Those in the party are Ted Russell, E. J. Whaley, Jack Russell, Herman McBride, Art and Stanley Carmichael.

Holly Toler and Thad Hardin, together with a group of out-of-town men, bagged six on their pilgrimage. It is believed Ted Russell will be more anxious about that little deer, his new granddaughter, who has arrived since he left home, than all the deer the group may kill. Grandpa received the news of the arrival of Elizabeth Karen to Mr. and Mrs. Teddy Russell, by telephone Tuesday night.

LaRoy Stubbs is also hunting deer with a group from Knox City. Results have not yet been learned here.

Bryant Joins Staff Of Graham Newsfoto

Announcement was made this week by Willard Jones, publisher of The Hamlin Herald, of the resignation on November 3 of Donald B. Bryant, editor-manager of The Herald for the past year. His connection with the local publication ends on November 29 and on December 1 he will join the staff of the Graham Newsfoto as managing editor and assistant publisher.

Graham, well-known as the gateway to Possum Kingdom Lake, is a town of about 8,000 population and the Newsfoto is one of two newspapers published there.

Mr. and Mrs. Finis Forgy of Bridgeport have accepted the places as editors and managers. They have had years of experience in the newspaper field. The Forgyes will be on the job Monday week.

Anson Tigers Drown Pipers In Rain, 26-2

Hamlin Stores Will Be Closed For Thanksgiving

Union Service Will Be Held Thursday Night

Thanksgiving will be observed as a holiday in Hamlin next Thursday with business houses being closed all day. This day was set aside as an official holiday by the Chamber of Commerce early this year.

Shoppers are urged by the merchants to keep this in mind when buying groceries early in the week.

A special union Thanksgiving service will be held in the auditorium of the First Baptist Church at 7:00 o'clock p. m. with Dr. Will C. House, pastor of the First Methodist Church, bringing the main Thanksgiving message. The public is extended a cordial invitation to attend this service and take part in giving thanks at this season.

An offering will be taken and will be presented to the Hamlin Memorial Hospital to be used to buy equipment or anything most badly needed by that institution.

The Hamlin Herald will be issued a day early, on Wednesday, in order that the office force may enjoy a holiday and subscribers can get their copies before Thanksgiving. Advertisers are urged to remember this and prepare their copy early Monday.

Hamlin High and Elementary Schools will be closed Thursday and Friday according to Superintendent I. R. Huchingson.

Many college students from various campuses over the state are expected to be at home with their families here for the Thanksgiving holidays.

Nazarene Zone Meet To Be Held Here Tonight

Churches of the Nazarene from Abilene zone will meet at the Hamlin Church of the Nazarene tonight (Friday) to hear Rev. L. J. DuBois, general secretary of the Nazarene Young People's Society, of Kansas City, Missouri, according to an announcement by the pastor, Rev. J. T. Crawford.

The meeting will begin at 7:00 o'clock p. m. and representatives of Abilene, Mt. Zion, Merkel, Stamford, Sweetwater, Buffalo Gap, County Line and Hamlin are expected to be present.

Rev. DuBois is a very outstanding speaker and the public is invited to hear him. He will be accompanied by the district president, Rev. D. M. Duke of Abilene and district superintendent, Rev. W. B. Walker.

"The Church of the Nazarene invites you to the regular Sunday services," Rev. Crawford states. Sunday School begins at 9:45 o'clock a. m. and preaching services at 11:00 o'clock a. m. and 7:00 o'clock p. m. and the young people's service at 6:15 o'clock p. m.

Four Square Group Having Attendance Contest Here Now

Rev. Alice Harrel, pastor of the Four Square Gospel Church of Hamlin, has announced that a Fisherman's Contest for the purpose of improving Sunday School attendance is now in progress at that church. The contest was started October 1 and will continue through December. Anyone who is not in other churches is extended a special invitation to be present next Sunday morning at 9:45 o'clock a. m. when the Sunday School program begins.

Morning preaching service begins at 11:00 o'clock a. m. and in the evening the worship service gets underway at 7:00 o'clock p. m. You are cordially invited to these services.

H. C. Stanley Jr. Tells Lions Club County Farming Progressing

"Agriculture, like business and science, is making constant improvements," County Agent H. C. Stanley Jr. told members of the Hamlin Lions Club at their noon luncheon meeting Tuesday. Stanley told the group about improvement that were being constantly made by progressive Jones County farmers and had samples of several different kinds of new combine maize strains that are proving very successful and in many cases will probably replace older strains that have been used in past years.

Stanley also touched briefly on improved wheat strains and other modern methods of agriculture that help to keep this area in the farm forefront. His talk was enjoyed by all.

Rainfall Totalling 1.92 Inches Brings Relief to Hamlin

In spite of the cold, damp days and the sloppy, muddy ground, Hamlin area citizens have worn their best, "Sunday go-to-meeting" smiles the past week. Temporarily at least, the summer-long drought which had extended through the fall and into winter days, has been broken.

Rain gauges at the City Pump Station have recorded a total precipitation of 1.92 inches since last Thursday afternoon, according to Bill Rountree. Last Thursday's rain measured .60 inch on Sunday, Monday and Tuesday a total of 1.32 inches was measured.

Farmers and ranchers in general were jubilant over the badly-needed rain, but wheat growers were especially boosted in spirit as the slow rain all soaked into the ground in this area and "dusted in" wheat will soon be up and getting a good start for next year's crop.

Bowen Pope's Brother Dies Wednesday At Lubbock

J. B. Pope, 82, passed away early Wednesday morning at his home in Lubbock after a lingering illness.

Funeral services were conducted at the First Baptist Church in Lubbock Thursday.

He is survived by his widow and 10 children. This was the first death in that family.

Anson High School disappointed Tigers—disappointed because they failed to stop Stamford's championship drive—drowned their sorrow and Hamlin's Pied Pipers at the same time, on a rain-soaked gridiron at the county seat last Thursday night. The Tigers struck twice in the opening two or three minutes of play to trounce the local lads, 26 to 2.

Statistically speaking, Anson had 16 first downs to Hamlin's 10, gained 350 yards rushing to 106 for the Hamlin Pied Pipers. Hamlin did bet.

Pipers Last Chance At Haskell Friday

The lowly Pied Pipers will have their last chance to break in the "win" column Friday night at Haskell when they meet the Indians. Who can coast of only a single victory and that over Albany. In spite of the fact Hamlin only tied Albany, they are conceded a good chance to defeat the Indians, provided Jack Owens sees considerable service.

ter in the passing department completing three of 16 attempts for 58 yards, while the Tigers air attack was a complete failure.

George Owens, Anson left end, dashed 16 yards on an end around sprint to score in the first minute of play, and shortly afterward Charlie Pearce intercepted a Piper pass and ran 27 yards for the second marker.

J. C. Whittaker added the last two touchdowns, scoring once in the third period on a one-yard plunge, and again in the final frame on a five-yard dash through the line.

Robert Caffey booted two extra points from placement.

The Pipers rallied two points in the final stanza on a safety.

The Anson line, looking considerably stronger than at any time this season, held the Pipers at bay most of the game, with the second string taking over during the late stages.

Farm Cash Income Shows Brisk Gain For Past Months

Farm cash income in Texas staged a brisk August to September gain to boost the seasonally-adjusted index up to a point five times above its prewar levels. The Herald was informed by the University of Texas Bureau of Business Research this week.

The 42 per cent August to September hike bounced the index up to 506.3, based on the prewar average of 100 (basis years 1935 to 1939). The part played by a rise in prices is different to determine, but increased production on the state's farms has augmented the rising prices of farm products to bring in more intake to Texas farmers than they have ever had before.

Cotton lint and cowpea prices were down during the month but prices of all other Texas farm products advanced. Grain prices soared as high as the 18 per cent wheat price rise over its August level, livestock prices were on the march upward, and poultry and egg prices were far above their August marks.

Estimated farm cash income for the state reached \$221,029,000 in the month of September, pushing the total intake for the year to date, January through September, to \$1,138,384,000. Income stood 43 per cent above its total for the same period last year. Greatest gain for the year to date came in the Northern High Plains district, where income registered a 123 per cent increase over the same period last year. All other districts reported farm incomes gains with the exception of the Trans-Pecos area and the Lower Rio Grande Valley, where farmers were not doing as well as they were at the same time last year.

The Northern High Plains also led in dollar-intake for the year to date, chalking up a \$705,740,000 total. Running second was the Black and Grand Prairies area, where farm cash income for the year to date reached \$162,095,000.

Farmers Are Better Off Now Than In Many Previous Years, Show Gains

Farmers of Jones County and those of the country as a whole are better off than they have been in many a year.

The farmer is one of the most favored in that lucky portion of the population who have been benefitted rather than injured by inflation.

Many farm experts feel that the farmer even now is not earning as

much as he should, considering his contribution to the national economy. Nevertheless, Department of Agriculture statistics indicate his economic position has improved far more, in proportion, than that of most groups.

The key to the farmer's present well being is the fact that his earnings have increased substantially

more than his costs of production and his living costs. These figures from the Bureau of Agricultural Economics (BAE) show what has happened:

The prices he receives for his products have increased 167 per cent above the low averages of 1935-1939. At the same time he has increased the volume of the goods he markets by 52 per cent.

He is getting a larger share of the money that people pay for farm products. In the 1935-1939 period only 40 per cent of the retail cost of food went into the farmer's pocket, the rest of it going to the "middlemen," the marketing agencies. Since 1943, however, he has received from 52 to 56 per cent of each dollar the consumer spends for farm products.

The prices the farmer pays have increased only 102 per cent in the period. This is divided between his costs for commodities used in production, which have increased 93 per cent, and what he pays for commodities he uses in family maintenance, which have risen 110 per cent.

Effect of all this shows up in the BAE's estimate of the farmer's net income. This rose from \$5,648,000,000 in 1940 to \$18,089,000,000 in 1946. The BAE looks for this to increase by 20 per cent this year.

The per capita annual net income of the farm population rose from \$173 in 1939 to \$620 in 1946. However, the farm population still has less than half the per capita income of the non-farm population, which was \$1,325 in 1946.

But the farmer's income rose 258 per cent in the period when non-farm incomes rose only 100 per cent. Furthermore, whatever income he receives from non-farming sources—such as slack season work in canneries or driving a truck, and return from investments—is not included.

The farmer has been able to accomplish all this because of the enormously increased demand for his products. In addition to the gigantic shipments abroad, he has found a greatly enlarged domestic market. Not only has the population increased by 11,000,000 between 1938 and 1946; the per capita consumption of food in the United States last year was 18 per cent higher than in the years 1935-1939. People in general have more money, and they are spending a larger proportion of it on food.

For the future the farmer's prospects look reasonably bright to the agricultural economists. Although food prices react more drastically to market conditions than other prices, the economists expect the demand for food to continue at high levels through next year and perhaps for many years ahead. And a steady demand will keep most prices up.

Barney Mason, of Comanche, formerly of McCaulley, has been a patient in a Rotan hospital for several weeks.

Vet Service Officer Writes "Open" Letter

Following letter has been received by The Herald from the recently appointed Veteran Service Officer for Jones County, Landon V. Davis:

"Dear Friends:

Your new "hired hand," the Veterans County Service Officer, bids you "howdy." The Jones County Commissioners Court under the authority vested in Senate Bill No. 44, "the County Service Office Bill," enacted by the 49th Legislature, has provided, by appointment, a Veterans Service Officer for Jones County. This place has been filled, successively, by: Roy Duke, William B. Teague and W. M. Nix, the last of whom, Nix, recently resigned and this writer was appointed to the place.

The duties of the County Service Officer, as outlined in the Bill, are: to aid all residents of the county providing such officer, who served in the military, naval or other armed forces, or nurses corps of the United States, in preparing and presenting claims for compensation, insurance or other items or benefits to which they may be entitled under the laws of the United States, or of any state, or such laws as may hereafter be enacted.

This writer is, himself, a veteran of World War I and has had several years experience in veterans service work, as a Post Service Officer of the American Legion; the most recent tour of which was Service Officer of Keiffer Patterson Post No. 146, of Hamlin. The law specifies that the County Service Officer be a veteran who is experienced in veterans service work.

The purpose of this letter is to solicit your cooperation, to the end that the veterans of Jones County

and their dependents get the service to which they are entitled. Veterans benefits are our business.

Sincerely,

Landon V. Davis,
County Service Officer,
Anson, Texas."

Beta Sigma Phi Pledges Initiated At Banquet Friday

Members of Beta Sigma Phi held a formal banquet Friday evening in the Home Economics Room at the Hamlin High School in honor of the pledges.

Two long banquet tables were laid with white lace dollies and centered with beautiful arrangements of yellow chrysanthemums flanked with black lighted tapers, carrying out the club colors very effectively. The attractive place cards featured the club flower, the rose, handpainted in yellow and the Beta Sigma Phi crest.

The menu consisted of fruit cocktail, pineapple and cottage cheese salad, fried chicken, english peas, creamed potatoes, gravy, hot rolls, pumpkin tarts and coffee.

Immediately following the dinner, the group went to the home of the president, Mrs. Kenneth Parker. A very impressive initiation service was conducted by Mrs. Parker, Mrs. Perry Sparks and Mrs. Stanley Carmichael. New members are Mrs. Pat Marlowe, Mrs. Elizabeth Holden and Mrs. John F. Green Jr.

A ceremony for the new pledges was conducted for: Mmes. Vernon Middleton, Carl Andress, R. N. Fairley and Charles Gardner.

Following the departure of the four new pledges, sorority pins were presented to the new members in a special service.

Those attending were: Mmes. Clifford Rapnolds Jr., Perry Sparks, Kenneth Parker, Stanley Carmichael, Pat Marlowe, Elizabeth Holden, John F. Green Jr., Vernon Middleton, Carl Andress, R. N. Fairley and Charles Gardner.

Mrs. J. L. Maberry Celebrates 85th At McCaulley Home

Mrs. John L. Maberry, who just two months ago underwent a serious major operation, celebrated her 85th birthday, November 9, with a reunion dinner in her home east of McCaulley.

A total of 57 relatives and friends attended the dinner, bringing gifts, cards and flowers to the honoree. Mrs. Maberry is the mother of 12 children, 10 of whom are living. She has 42 grandchildren.

Mrs. Jack Farrow baked the beautiful birthday cake for the celebration.

Grandmother Maberry and her only brother, Jim Harris, have made their home together the eight years since the death of her husband.

Guests who attend the gala celebration were: Mr. and Mrs. Dave Maberry, Mr. and Mrs. J. L. Frank Maberry, Mr. and Mrs. S. E. Blalock, Jim Harris, Mr. and Mrs. L. R. Andress and children, Mr. and Mrs. Jerry Maberry and son, Mr. and Mrs. Jack Farrow and son, all of McCaulley; Mrs. Della Smith of Sweetwater, Mr. and Mrs. Clinton Maberry and children of Dallas, Mr.

and Mrs. Ray Maberry and children of Hamlin, Mr. and Mrs. L. B. Maberry of Hamlin, Mr. and Mrs. Willard Maberry and daughter also of Hamlin, Grover Seaton, Mr. and Mrs. Ira Seaton, J. C. Seaton and Era Seaton of Brownfield, Mr. and Mrs. Walter Darling and children also of Brownfield, Mr. and Mrs. B. D. Seaton and children of Rotan, Tommie Flenigan of Ropes, Mrs. Rose Seaton of Andrews and Mr. and Mrs. Albert Maberry and children of Hamlin.

Mrs. Ed Bailey Hostess Friday To Garden Club

Hamlin Garden Club met in the home of Mrs. Ed Bailey Friday afternoon. Mrs. H. O. Cassie, president was in the chair. Mrs. C. P. Yates led the opening prayer.

Roll call was answered with, "A Favorite Flower Combination in My Garden." Mrs. Luther Marr discussed, "How to visit a Nursery."

"Plan of the Home Grounds," was the topic on which Mrs. J. W. McCrary spoke. Miss Ella Temple and Mrs. W. J. Pee had several very attractive arrangements of flowers on display which would be suitable for Thanksgiving.

A total of 21 members were present.

The next meeting will be December 12 in the home of Mrs. Ed Britton.

Parents Warned About Severity Of Scarlet Fever

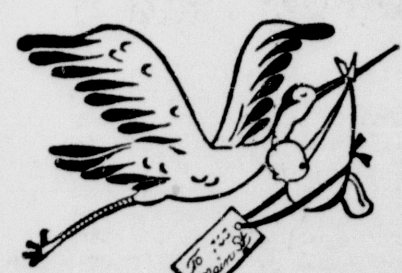

State Department of Health has issued a warning to Herald readers in regard to scarlet fever, since the number of cases usually increases during the fall months. The majority of deaths from this disease occur during the months from October through February.

Scarlet fever is a very contagious and serious disease. Grown people may contract it, but children under 15 years are especially apt to have it, if exposed. It is especially dangerous for children under 15 years, and Dr. George W. Cox, State Health Officer, warns mothers to "not let your children take any chances with scarlet fever. Call the doctor as soon as any suspicious symptoms appear."

Dr. Cox said that the first signs you may notice are that the child seems tired, restless and out of sorts. Usually, there is a sore throat, chills, vomiting, or in some cases convulsions and fever. The skin is dry and hot, the tongue is furred, and, under this furry covering, it is red and swollen. In ordinary cases the early signs are followed in a day or two by a rash. Little flat red points, close together, appear first on the neck and chest and soon the rash, very red in color, spreads over most of the body.

The doctor is required by law to report the case to the local health officer. It is important that the family follow carefully the quaran-

Blessed Events

Mr. and Mrs. Teddy Russell are the proud parents of a daughter, born Monday morning, November 17 at a Rotan hospital. She tipped the scales at seven pounds and eight ounces and has been named Elizabeth Karen.

fine instructions which the health officer issues, since a severe or fatal case of scarlet fever may develop from contact with some one who has only a light attack. Children who have scarlet fever, or who have been exposed, must not return to school until permission is given by the health officer and physician.

The volume of production of all U. S. crops this year is expected to be a little over last year's high record, well above the 10 year average, and slight above the average for U. S. farmers' best years, 1942 to 1946.

His End Was Theirs.

The despondent officer left headquarters and climbed in the jeep. "Where to, sir?" asked his driver. "Drive off that cliff, seaman," he replied, "I'm committing suicide."

Cotton Is Best Fiber.

Cotton is the best fiber I know of. We in the rayon industry would give a whole lot to be able to produce a cellulose molecule like that of your natural fiber. — Dr. Fred Bonnet, American Viscose Company.

Women Can Food For Orphan Home

Mmes J. R. Elliott, Jeff Cheshier, Bruce Hallmark, Gid Howington, F. M. Crow, George Miller and C. B. Rowland met in the home of Mrs. W. E. Crow Thursday for the purpose of canning chow-chow and sweet potatoes for Tipton's Orphanage.

Several others had planned to participate in this splendid work but were unable to do so due to the inclement weather.

Three gallons of chow-chow was made and five gallons of sweet potatoes were canned.

Moves to Temple.

Mrs. W. R. Wilkerson, life-time resident of Hamlin, left Wednesday for Temple, where she will make her home with her daughter, Mrs. L. K. Ballew and family at 1206 9th Street. Mrs. Wilkerson and Mrs. Ballew will operate a tiny toy shop there.

Mrs. Kelly Scott was taken to a Stamford hospital Monday for treatment of a severe chest cold.

Here For Wedding.

Miss Hazel Adkins of Pasadena, California arrived here Sunday to attend the wedding of her brother, Glen D. Adkins and Miss Joan Owens. C. J. Adkins of Houston arrived Wednesday to be best man in the ceremony, which was set for Thursday at 6:30 o'clock p. m. in Lubbock. They are visiting in the home of their sister, Mrs. Dalma Shelburne and family, while in Hamlin.

Mr. and Mrs. Shelburne and Gene, Miss Adkins and Mr. Adkins left Thursday afternoon for Lubbock.

Miss Adkins is employed by the Giannini Auto Flight Instrument Company in Pasadena, California. She spent Sunday night and Monday in Lubbock visiting her brother.

Which Be It?

A woman phoned her bank to arrange for the disposal of a thousand dollar bond.

"Is the bond for redemption or conversion?" a clerk inquired. "There was a long pause, then the woman asked: 'Am I talking to the First National Bank or the First Baptist Church?'"

Thanks'ivin'!

Mr. and Mrs. A. L. Killebrew of Jackson, Mississippi, are here for a while with their daughter, Rev. Alice Jarrell.

Mrs. D. W. Carlton has been brought home from Fort Worth and is reported getting along nicely at the family home.

Mr. and Mrs. Austin Poe arrived home Tuesday afternoon from Montana, where they had been for the past three months.

Mr. and Mrs. I. C. Fudge Jr. and Billy Wayne of Littlefield visited his parents, Mr. and Mrs. I. C. Fudge Sr. Armistice Day.

Barry Moore, son of Mr. and Mrs. Fred B. Moore Jr., was ill with a severe cold early this week.

Clee Barnett has gone to Alice

Veterans' News

Q.—What are some of the advantages offered to the veteran by the GI Bill if he buys a home under its guarantee loan provisions?

A.—With a VA guaranty the veteran has a better chance of inducing a lender to make a loan. The lender may even consider making the loan where no down payment is to be made on the home. Another advantage is the four per cent rate of interest, which is low.

Q.—Is it true that if I secure a guaranteed loan, VA will pay part of the loan without cost to me?

A.—Yes, Veterans Administration pays to the lender an amount equal to four per cent of the guaranteed portion of the loan. For example, if the guaranteed portion of your loan is \$4,000, the lender will receive \$160 from VA to credit to your debt and you will not have to repay this amount to anyone.

Q.—Can the veteran get a guaranteed loan for any type of business?

A.—Yes, the veteran can get a guaranteed loan on any type of legitimate business on which the lender is willing to lend money.

Q.—Can I get a guaranteed loan to buy furniture for my home and a pleasure car?

A.—No.

Q.—My son, who was blinded while in the service during World War II and I would like to know if he is entitled to receive a guide dog at government expense?

A.—Yes, a service connected blind veteran is entitled to receive at government expense a guide dog and various devices necessary to assist him to overcome his handicap.

Q.—Does a veteran have to have a 10 per cent or more service connected disability to be eligible for outpatient treatment?

A.—Any veteran with an established service connected disability is entitled to outpatient treatment for service connected disability, regardless of the degree of disability.

Q.—If I go to a private physician to determine whether I need hospital treatment or domiciliary care will the government pay the cost of the examination?

A.—The government will pay the cost of examinations by a private physician only if Veterans Administration has given the physician prior authority for such examination.

Q.—Please tell me what veterans are eligible to have prescriptions filled at government expense?

A.—If the veteran's physician has been authorized by Veterans Administration to treat the veteran, VA will pay cost of the prescription if it is used in treatment of the veteran's service connected disability.

Cottonseed, Once Thrown Away, Is Worth \$90 Today

According to press dispatches from the Department of Agriculture at Washington, cottonseed, once thrown away as waste, is bringing an average price of \$90.60 per ton over the country. The price advanced \$15 per ton during the month ended October 15.

Price being paid by gins in Snyder this week was \$80 per ton, with delivered price at crushing mills in the area around \$90.

Between 1909 and 1914 the average price of cottonseed was \$22.55 per ton, and in the period from 1935 to 1939 the average price was \$27.52 per ton.

Cotton itself is doing well as a revenue producer for the farmer, the bureau reports. The average price as of October 15 was 30.65 cents per pound, as compared with 12.4 cents per pound average between 1909 and 1914 and 10.34 cents per pound average between 1935 and 1939. But the October 15 price was about seven cents below the average price of October 15, 1946. A year ago, cotton's average price was 37.69 cents per pound.

The Department of Agriculture looks for the world to produce in 1947-48 a total of 26,100,000 bales of cotton. This is 21 per cent more than the preceding year's exceedingly small crop of 21,500,000 bales. Of the total, the U. S., according to latest estimates, will produce about 11,508,000 bales and Mexico will contribute 464,000 bales.

Seedlings Available At Cost for Farmers From State Nursery

The state's first northern brought a reminder to Jones County folks from the Texas Forest Service at A. & M. College that tree planting time is just around the corner, and that seedling orders need to go in as soon as possible.

County Agent H. C. Stanley says that the Texas Forest Service at the state nursery near Alto will have almost 18,000,000 seedlings that have been selected for adaptability in Texas. The trees will be sold at cost of production for use in starting timber and fence post plantations and for wind-break purposes. The seedlings are not to be sold for landscaping.

D. A. Anderson, in charge of the state nursery, reports that 15 different kinds of trees will be available from the nursery by late December.

For plantings in West Texas there are the red cedar, Arizona cypress, Russian mulberry, green ash, thornless honey locust, desert willow, western yellow pine and pistacia.

Fowler says prices on the trees are \$3 per 1,000. The prices are f. o. b. the nursery at Alto.

Further information on ordering the seedlings may be obtained from the local county agent or by writing to the Texas Forest Service at College Station.

Cotton Balance Sheet In Nation Losing Ground

United States cotton balance sheet was losing ground during October. Hamlin area cotton farmers were advised this week from the University of Texas Bureau of Business Research. The estimated year's supply of cotton in the United States was at its lowest October 1 point since 1924.

Prospects for this cotton year indicate a 1947-1948 supply totaling 12,589,000 bales, not counting exports during September, compared to the 12,268,000 bales supply indicated on October 1 of 1924.

Dr. A. B. Cox, professor of cotton marketing at the University's College of Business Administration, has placed world production of commercial cotton for this year at 24,300,000 bales, nearly 2,000,000 bales less than the probable world consumption.

Dr. Cox, explaining why the cotton futures market has had to buy and carry an extremely large amount of cotton, said, "The unusually dry fall and larger supply of pickers have caused this crop to be harvested at an uncustomary, rapid fire, and farmers have generally sold their cotton as harvested."

Price movement in the months ahead, as pointed out by Dr. Cox,

must be judged in the light of probable decline in exports, 1,000,000 bale decrease in United States consumption, the hike in world supply which still fails to meet estimated world consumption, the two cents per pound price decline since last year, and the slump in the value of money in terms of buying power.

Dr. Fred Fisher Concludes Talks At First Baptist

Dr. Fred L. Fisher will conclude the series of meetings at the Hamlin First Baptist Church tonight (Friday) on "What Baptists Believe."

Large crowds have been attending these service every night this week. Monday night the Training Union was honored; Tuesday night, the Women's Missionary Society; Wednesday, the Sunday School department; Thursday night, the men of the church and tonight (Friday) will be "Everybody's Night." A social hour will be enjoyed in the church basement at the close of the service.

Dr. Fisher, professor of Bible at Hardin-Simmons University, Abilene, is a very impressive speaker.

More Than Money's Worth.

Customer in drug store (on Sunday morning)—"Please give me the change for a dime."

Druggist—"Here you are. I hope you enjoy the sermon."

Rabies Occurs in More Than Hot Days Says Cox

Contrary to popular belief of the Jones County people rabies is more prevalent in winter than in the so-called "dog-days" of the hot summer months.

In a statement released to The Herald this week by Dr. George W. Cox, state health officer, it was disclosed that of all animal brains submitted for examination by the state laboratory in January 1947, 33 per cent tested positive for rabies, while in the mid-summer month of July only 18 per cent were positive.

"If all stray dogs were destroyed, and all pets vaccinated for rabies, it would go far toward stamping out this justly feared and always fatal disease," Dr. Cox said.

The doctor stressed that dogs suspected of having rabies should not be killed immediately, but should instead be confined 10 days for observation to see if the disease develops. If a dog sickens and dies during the observation period, the head should be packed in ice and sent to the State Health Department for examination. Freezing the brain, or killing the dog permanently, or in such a manner as to injure the brain may make correct laboratory findings uncertain, if not impossible.

Paper Advertising Lineage Climbs Up

Advertising in The Herald and other Texas newspapers moved upward for the second consecutive month in September. This completely recovered them from the mid summer sluggishness. The Herald was advised by a news release from the University of Texas Bureau of Business Research this week.

Served a la Moderne.
Hinky—"Boy, did my gal hit last night!"
Dinky—"How?"
Hinky—"When the waiter asked her how she'd like her rice, she said, 'Thrown at me!'"

Uncle Sam Says

Millions of my young nieces and nephews are returning to school to learn from their teacher, schoolmates and books a way of life. Besides grammar, history, arithmetic, home economics and a variety of other courses, they will come face to face with sportsmanship, honesty, self-reliance and the habit of thrift. Facts crammed into the heads of Willie and Jane will come in handy, but thrift is something which will be vital to their well-being every day of their lives. Of course the habit of thrift may be acquired in many ways, but a sure way is the participation of my young nieces and nephews in the United States Treasury Department's School Savings Program.

Deadline for Mailing Gifts Overseas Nears

Only a few more days of time is left to mail Christmas packages to men in the service overseas in order that they may receive their packages of cigarettes and lighters, toiletries and other comfort articles. Mailing time was set by Army departments from October 15 to November 15.

It is advised that discretion in the choice of gifts should be used this year as the soldier overseas now is amply provided with clothing and food. He can also purchase candy.

Seriously Ill.

O. L. Cohorn of the Hilton community was taken to a Abilene hospital Sunday for treatment. He became seriously ill Saturday night and his condition required blood transfusions early this week.

Attend Funeral.

Mr. and Mrs. P. D. Funderburk and sons attended the funeral services for her father, Fred Copple, at Harper Sunday. He died Friday night after a lingering illness.

Texas Press Association Sees Dawn of A New Era

December 1 will mark the dawn of a new era for the Texas Press Association in the opinion of Paul Fulks, president of the Texas association and publisher of the Wolfe City Sun.

On that date the daily and weekly newspapers of Texas join hands to open their own central office with a full-time staff of experienced press association workers in charge.

Texas Press Association directors have contracted with Vernon T. Sanford, for 13 years secretary-manager of the Oklahoma Press Association, to manage the Texas association. Officials of the Texas organization are now endeavoring to locate office headquarters in Dallas.

Said Fulks, "Our central office will issue information bulletins to the newspapers, serve as an employment bureau for newspaper workers, look after the legislative interests of the publications, represent our newspapers in the sale of political and state advertising, and arrange our convention programs."

The TPA president also stated that "our plans call for activities not alone in the interest of the press of Texas, but for the state in general. Details of a promotion program for Texas will be announced as soon as the central office can complete arrangements with other interested groups and individuals who want to see the great state of Texas grow greater and greater."

Sanford has been with the Okla-

VERNON T. SANFORD

homa organization since August 1, 1934. Prior to then he was manager of the Nebraska Press Association.

He is a native Oklahoman. His newspaper training was received in the Sooner State over a period of 15 years, on the Chickasha Daily Express, Norman Transcript, Anadarko Daily News, and the semi-weekly Cleveland County Democrat - News. He has been a carrier boy, printer's devil, assistant pressman, reporter, classified advertising manager, display advertising manager, and part-owner.

Sanford is a past-president of the Advertising Club of Oklahoma City; the Oklahoma City Chapter of the Southwestern Association of Industrial Editors; and of Newspaper Association Managers. He served for two years as chairman of National Newspaper Week and editor of the NAM Bulletin. He is a member of the board of directors of the Better Business Bureau of Oklahoma City and an honorary member of the board of directors of the Oklahoma City Chamber of Commerce. He is also a member of the Oklahoma City Camera Club, the Midwest Circulation Managers' Assn., the International Council of Industrial Editors, and the Newspaper Advertising Executives Assn.

He belongs to the Legion of Honor of the Order of DeMolay, the Masonic Lodge, and the Methodist Church.

The new Texas manager is a graduate of the University of Oklahoma, with an AB in Journalism; and holds a Master of Arts degree from the University of Missouri. He was awarded a Fellowship by the University of Missouri and was presented with the first Merit Award given to graduates of the University of Oklahoma's school of journalism for accomplishments in their chosen profession.

Mr. and Mrs. Sanford will establish a home in Dallas. They have two children, a daughter Gaye, 17 years; and a son, Sandy, 14.

Changes in Government Farm Plan Seen with Consolidation of Agencies

Farmers of Jones County and the rest of the nation today could look forward to some changes in the government's program of agricultural assistance.

Members of the House of Representatives' Agricultural Committee, who held a hearing at Temple Saturday, said flatly that the government farm program, now handled

by many agencies, cannot go on as it has the past several years.

There is a good chance for unification of many of the Department of Agriculture agencies which have overlapping functions.

The committee had become suspicious of Department of Agriculture agencies by the time they held their hearing at Temple.

At every hearing, members said, there had been considerable evidence of agency packing, with the farmers getting up and sounding off for specific agencies.

Chairman Clifford Hope of Kansas, a Republican, said that only in Kansas and in Texas had there been any discussion of farmers accepting government financial aid less than 100 per cent of parity for their products.

The government has now in operation a program which guarantees the farmer 90 per cent of parity on all crops but cotton, where 92 per cent is guaranteed.

Parity is a touchy subject with farmers, the congressmen learned. "We've found a lot of farmers who want guaranteed prices but who do not want any acreage controls. They do not realize that such a program would break the government," Mr. Hope said.

A rancher of Gatesville, Coryell County, N. Foote, took the floor in Temple to ask for 75 per cent of parity.

"I know we cannot have this without acreage controls," Mr. Foote said. "But if we can be guaranteed a fair price which will let us plan ahead I think farmers will accept acreage controls."

In Temple, and at eight other hearings over the nation, the farmers asked that they be allowed to handle their own program without interference from bureau representatives.

Most members of the House committee feel that a long-time farm

program is necessary. Chairman Hope expressed that view.

But a Republican from Pennsylvania, Chester Cross, who brags on his Pennsylvania Dutch constituents at the least opportunity, said he is not sure.

"I think maybe we ought to let the farmers go and they will work out their own problems. We've found farmers depending a great deal on Uncle Sam. But no government program is going to solve the farmers' problems. They'll do it themselves," Mr. Cross said.

Others in the party were Representative Walter Granger of Utah and Representative Abe Goff of Idaho.

Great-grandmother was afraid to go out when she heard a wolf calling.

Great-granddaughter is afraid to go out for fear that when a wolf calls she won't be in.

Brothers Under the Skin.
Poet—"This is an unfair world."
Friend—"How so?"
Poet—"A banker can write a bad poem, and people think nothing of it. But just let a poet try writing a bad check!"

Put an End to Arguments.

"It's rumored around that you and your husband are not getting along so well together."
"Nonsense! Oh, we did have some words and I shot him—but that's as far as it ever went."

Baptist WMS Has Program On Africans

"Peoples of Africa," was the subject for the Royal Service program at the Women's Missionary Society meeting Monday afternoon with all circles meeting at the First Baptist Church. A total of 17 members were present.

Mrs. Delma Shelburne was program chairman. Mrs. I. R. Hutchinson gave the devotion on, "Arise and Shine" using verses from the 59th and 60th chapters of Isaiah. Mrs. Shelburne discussed, "Meet the Africans," as an introduction. "Slave or Freedom?" was the topic which Mrs. John Walton used for a brief talk. Mrs. A. G. Irwin talked concerning, "African Religions." The song, "Hear I Am; Send Me," was sung by the group. The program chairman concluded the service by giving a sketch of the work of the Southern Baptists in Africa.

In a brief business meeting, Mrs. Joe A. Simpson, president, urged that every Baptist family bring canned goods to the church basement by Sunday to be sent to Buckner's Orphanage for Thanksgiving. The canned food may be home-canned or bought. The drive for clothing for needy Europeans will be continued and everyone who has a contribution may bring these to the church kitchen. It was announced that the clothes do not have to be cleaned or mended, as was previously announced.

Next Monday afternoon all circles meet at the church for a mission

Texas Needs More Cotton.

It would not be to the interest of Texas for cotton production to remain at a low level, even though many new crops can be raised. As conditions return to normal, some expanded supplementary crops may have to be sharply reduced. Unless a good market for cotton can be maintained, agricultural income is very likely to decline.—Dallas Times-Herald.

POT-SHOTS FROM McCauley

By GEORGE DARDEN

Visiting in the home of Mr. and Mrs. W. C. Kean were her father, J. W. Smith of Pittsburg, her sister, Mrs. Charles Kisterson and a new-born baby.

Abilene was the scene of homecomings galore the past week for three great schools, namely Hardin-Simmons University, Abilene Christian College and McMurry College. Several of our citizens attended the football games and other entertainment afforded by the schools.

John Carter, Hardin-Simmons University, Abilene, student, visited his parents and Mr. and Mrs. Frank Houghton and family over the weekend.

Blood donors from this community were preparing to leave for Rotan Monday to be typed for blood for Tom Price who is seriously ill in a Rotan hospital.

Word has come that M. T. Mason, formerly of this community and who now resides at Comanche, is seriously ill at a hospital in that city.

John Frank Maberry has purchased the Henson Farm consisting of 90 acres. The farm joins the Maberry Farm on the west.

The McCauley community received rain last week amounting from a quarter-of-an-inch to better than a inch. Milton Webb reported better than an inch at his farm west of town.

Shooting fire works and throwing lighted giant fire crackers on people's front porches is a dangerous business. Such carrying on could cause a home to be burned and other serious complications. Home owners will appreciate you taking your fire works to the "big pasture" or shoot them on our own front porch.

School buildings all over the country have experienced robbers breaking into school buildings the past week. We notice that Girard, Jayton and Clairmont Schools were robbed last week of more than \$300. A few shot gun "slugs" from the guns of citizens or officers would go a long ways into breaking up a gang of sneak thieves.

Rev. C. E. Dick and Mr. and Mrs. A. A. Callaway attended the Baptist convention in Amarillo last week.

Miss Mary Ann McCollum, McMurry, Abilene student was home over the week-end with parents, Mr. and Mrs. Levi McCollum.

Milt Carter, old timer of this community, is in a Rotan hospital for treatment. His condition is considered serious.

Mr. and Mrs. J. Howard Darden and family from Lubbock were visitors in the home of brother and family the George Dardens last Sunday.

Mrs. Flora Mason and Miss Gerlie are in Comanche this week at the

bedside of M. T. Mason who is ill. McCauley still on the boom as far as real estate deals are concerned. Lots of trading and many changes will be made between now and the first of the year.

W. A. (Alf) Hemphill plans to open a new up-to-date Helpy-Selfy Laundry in McCauley about the first of January. Location will likely be in the drug store building.

There is room in McCauley for several different kinds of businesses. A mighty good school, three churches and a community you will be proud to live in. Come on over, let George tell you all about it.

Comments—The leaders of Europe are yelling their heads off for loans to keep their people from starving yet hundreds of thousands of dollars are being spent by some of these same leaders to stage a wedding for the King and Queen's daughter of England. Any Justice of the peace in West Texas would be glad to marry a royal couple for \$1.50 and all the gifts and money that is being spent for the wedding could go to feed their starving people. It is down right silly for Uncle Sam to send money to feed Europe when so much is being spent on the King's daughter's wedding. West Texans had better keep their money at home for their own daughters who mean a lot more to us than the royal daughter of England.

This Baptist Convention held in Amarillo last week turned out to be a rough and tumble affair, so it seems. One preacher was thrown out of the convention hall for heckling. Such "carrying on" reminds us more of a political convention. We happen to be a Baptist, so we gotta notion that it's no sin to take a few pot-shots at our own denomination especially when their actions reminds us of "child's play." When preachers of all faiths start preaching the Bible and refrain from lambasting the other fellow then the non-believers might become interested in Christianity. Well, anyway, maybe the sky-pilots will have a text next Sunday and if a few hot heads jump on us—well, we have been jumped on before.

Playing Safe.

Mandy—"Mrs. Sanders, I am gwine to get married. Here am a hundred dollars I done saved out of mah wages. Take it and keep it safe for me."

Mrs. Sanders—"Very well, but why don't you take it with you in you new home?"

Mandy—"Land sakes! Do you think I would trust all dat money around dat strange Nigger?"

Santa Fe Carloadings Up.

Santa Fe System carloadings for the week ending November 1, 1947, were 31,315 compared with 27,910 for the same week in 1946. Cars received from connections totaled 13,305 compared with 13,123 for the same week in 1946. Total cars moved were 44,620 compared with 41,033 for the same week in 1946. Santa Fe handled a total of 44,354 cars in the preceding week of this year.

In spite of the expense and loss of time, the bridegroom should accompany the bride on the honeymoon. It may be the last vacation that he will ever have.

Green Pastures Will Pay Dairy Farmers Returns

Jones County dairy farmers are being cautioned this week by County Agent H. C. Stanley Jr. to avoid the tough winter time feeding conditions now that seems apparent for many of the farmers.

Realizing what the feed situation is likely to be, many dairymen are looking for ways to avoid the high-price slap that seems to be coming. Stanley says Extension Service dairymen at Texas A. & M. College, looking back over the years they have seen dairy farmers face the same situation, say that a first and wise step will be to see that each pound of feed is used to best advantage. Every dairy herd of any size has some cows that need culling out, because they will not be producing when the feed load is the heaviest.

During the few weeks before frost, Stanley points out, there will be the opportunity to put up more hay and silage, and every pound of good roughage will come in handy this winter. So, between now and frost, a good job of harvesting hay and silage crops is No. 1 on the list of dairy farming chores, the county agent says.

Because of dry weather in this area during September, it was not possible to get enough small grain pastures planted in early September. This should not, however, cancel all plans for planting winter grains, the agent says. The feed situation is such that planting on they are, \$1 spent for small grain pasture should return more than \$15 worth of grazing, Powers declares. Only \$50,000 spent between 1920 and 1932 on soybean research has resulted in a total crop value of several billion dollars.

Plan Ahead for Cotton.

Successful cotton farming is becoming more and more a year-round job. Planning ahead for next year's cotton is just as necessary and profitable as planning livestock production on a 12-month basis.—Southern Agriculturist.

James C. Cleveland, Five Months Old, Dies Thursday Morning

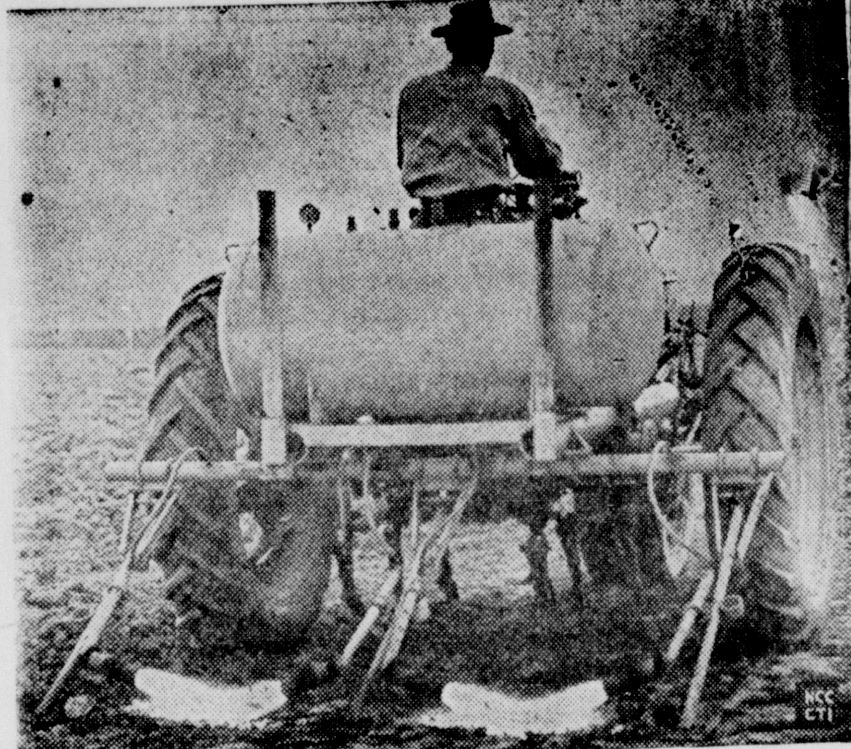

Funeral services were conducted by Dr. Will C. House, pastor of the Hamlin First Methodist Church, Friday afternoon at Barrow Funeral Home. Interment was in the East Cemetery.

James C. Cleveland, five-months old son of Mr. and Mrs. Alfred Cleveland, died in an Abilene hospital at 6:00 o'clock a. m. last Thursday following an illness of one week. Death was attributed to pneumonia.

Mr. and Mrs. Cleveland, operators of the Wagon Wheel Cafe here, moved to Hamlin the first of October. The baby was born in Tucson, Arizona June 4, 1947.

He is survived by his parents; one brother, William, three-year-old; grandparents, Mr. and Mrs. J. P. Bowman of Hamlin and Mrs. Laura Bourdon, Minnesota and Charles Cleveland, Burke, Idaho; two aunts, Misses Doris and Jessie Dean Bowman of Hamlin; two uncles, Felton Bowman of Hamlin and William Bowman of Commerce.

Plans can be trained to dance, crawl, chariots and throw objects many times their own weight.

MECHANIZED cotton farmer, Scurry County, has brought the flame cultivator, which sears the cotton's weed enemies and frees farm workers from the laborious task of cleaning out cotton

rows in summer heat. With the harvester, it gives the farmer invaluable assistance during the two peak labor periods of the cotton production cycle—cultivating and harvesting phases.

HAMLIN THE HERALD

COTTON GRAINS OIL CATTLE GYPSUM
A LACKEY-JONES PUBLICATION

VOLUME 43
NUMBER

HAMLIN, TEXAS, NOVEMBER 21 NINETEEN HUNDRED FORTY-SEVEN

ISSUE 3
NUMBER

Most Farm Products Selling Steady to Moderately Higher Prices Last Week

Most Southwest farm products sold at fairly steady to moderately higher prices last week, according to a report received by The Herald from the Production and Marketing Administration, United States Department of Agriculture.

Unfavorable prospects for next year's winter wheat crop and large export demands still dominated the grain markets. Wheat registered further substantial gains to sell Friday at \$3.11. Other grains held close to last week's levels.

Uneven trends continued to rule

feed markets, with average prices a little higher. Peanut oil and meal strengthened, but shelled peanuts remained dull. Domestic wools moved slower. Less than 15 per cent of domestic offerings sold in an auction sale held on Thursday, November 13. Mohair was slow at uneven prices.

Cotton harvesting and ginning continued active during the week, although cool days and sandstorms retarded progress somewhat in the Northwest Texas and Western Oklahoma. Sales decreased slightly de-

spite net price advances of around \$4 per bale.

Week's cattle sales went largely at steady to stronger prices, with many lots going higher at Wichita and Denver. However, low grade cows at Texas markets moved counter to the trend to sell as much as 50 cents lower at \$8 to \$12 for canners and cutters. These grades brought \$9 to \$12 at Oklahoma City, \$10.50 to \$13 at Wichita, and \$11 to \$14 at Denver. Texas paid \$12 to \$15 for common and medium cows.

Sheep prices held mainly steady to strong for the week but lambs showed some easiness at Oklahoma City, Wichita and Denver. Common and medium lambs sold at \$14 to \$18 at San Antonio, as medium and good grades cashed at \$19 to \$21.50 at Fort Worth, and \$17 to \$21 at Oklahoma City. Denver paid \$24.25 for choice natives.

Hog markets rallied some during the week but butcher classes suffered losses up to 25 to 50 cents at some terminals. Feeder pig prices dropped 50 cents to \$1 at San Antonio and Oklahoma City and \$4.50 at Fort Worth, where top offerings sold at \$20. Closing top butchers ranged from \$24.75 at San Antonio to \$25.50 at Denver.

Turkeys moved to market in a greater volume for the Thanksgiving holiday trade. Prices stayed at close to support levels at most places.

Most Property Signed for Road East of Anson

County Judge Roger Q. Garrett reports this week that good progress is being made on the task of securing needed right-of-way on U. S. Highway 180, from Anson east to the Jones-Shackelford County line. The state is asking for 10 more feet of space and as soon as all deeds are signed and obstructions removed, the State Highway Department will authorize awarding of contracts for new pavement, it was said. Hamlin area residents are looking forward to this needed improvement.

Practically all property owners adjacent to the highway have signed and returned deeds except those in the immediate vicinity of Funston where there are some special problems to be worked out. Ironing out of all difficulties standing in way of completing the purchases of necessary right of way is receiving special attention of the committee.

"The spirit of cooperation landowners have shown on the east end of 180 has been very gratifying and has matched that which made the quick work on the west end of the highway possible," said Judge Garrett. "There has not been a single hitch, some of the landowners have even come to the courthouse to sign deeds or volunteer to help in getting deeds executed."

"A lot of compliments are being received by Anson and Jones County for Highway 180 west of town which was opened to traffic October 13. The traveling public is watching for an early announcement of the awarding of the contracts on the east end. When the job is completed a modern east-west highway will be provided entirely through the county," Garrett pointed out.

Completion of the proposed improvement in Jones County will eliminate the last real bad piece of road on the 180 route between Fort Worth and El Paso.

News Briefs From—Haskell County

Haskell merchants and business concerns are being asked by the Chamber of Commerce to sponsor a Christmas lighting in the business section. Grand jurors for the 39th District Court were called into session again this week. Dean Bartlett, a Haskell girl enrolled at ACC, Abilene, has been elected as vice-president of the Dormitory Council. Haskell fans were treated to an all-grill football game there last week, the Papooses beating the Squaws. Approximately 4,000 people attended the Armistice Day celebration in Rule. Ruth Allen is football sweetheart of the Rule Bobcats, and was presented between halves of the Rule-Rochester game, Rochester won 26-12. Haskell ministers reorganized their ministerial Alliance this week with Rev. J. H. McClendon re-elected president. A small fire did several \$100's damage to a Haskell Piggly Wiggly last Thursday.

Mrs. G. R. Bennett's Brother Dies In California Friday

Mrs. Gordon R. Bennett received word Saturday morning that her brother, Roy McElhaney, 49, had died at 9:00 o'clock p. m. Friday following an illness of six weeks.

Mr. Elhaney had been living in Honolulu, Hawaii for the past six years and worked as personnel manager of an electronic plant. Ten days previous to his death he was flown to Oakland, California, his former home.

Final rites for Mr. Elhaney were held in Oakland Monday with burial there. Mrs. Bennett was unable to attend. She had planned to visit her brother shortly after Thanksgiving, and his death was a shock although the family knew he would never be well again.

He is survived by his widow; one daughter, Mrs. J. J. Hawk, Santa Clara, California; two grandchildren; his mother, Mrs. M. V. McElhaney, Ventura, California; two sisters, Mrs. G. R. Bennett and Mrs. A. A. McClaskey, Van Horn; five brothers, Curtis, New Orleans, Louisiana; Clayton, Vallejo, California; W. W. and Rex, Ventura and Leon McElhaney of Santa Paula, California.

John May visited Dr. and Mrs. Frank Johnson at Rotan Sunday.

GI Job Training Program is at Peak

Job training program provided for Hamlin's and other towns World War II veterans by the GI Bill has passed its peak under present laws and conditions, the Veterans Administration believes.

The peak apparently was reached last January when 632,000 veterans were training on-the-job. Steady decreases since then cut the total to 564,000 by September 30 of this year.

VA said principal factors in the declines were the ceilings on income plus subsistence allowance and the two-year limits on all job-training, other than apprenticeship training.

Veterans training on-the-job in the Dallas Branch Area as of September 30 included for Texas was 41,000.

Mrs. W. R. Johnson of Abilene visited her parents, Mr. and Mrs. W. B. Boyd Jr. Sunday.

Dr. Fred Fisher Concludes Talks At First Baptist

Dr. Fred L. Fisher will conclude the series of meetings at the Hamlin First Baptist Church tonight (Friday) on "What Baptists Believe."

Large crowds have been attending these service every night this week. Monday night the Training Union was honored; Tuesday night, the Women's Missionary Society; Wednesday, the Sunday School department; Thursday night, the men of the church and tonight (Friday) will be "Everybody's Night." A social hour will be enjoyed in the church basement at the close of the service.

Dr. Fisher, professor of Bible at Hardin-Simmons University, Abilene, is a very impressive speaker.

Mr. and Mrs. A. G. Miller attended the burial services for Mrs. Bill Johnson at Munday Sunday.

TRUE STORIES of WEST TEXAS

(By N. H. Kincaid, 2618 History St., Abilene, Texas—Copyrighted)

"THE MISSING FENCE POSTS"

Bill Elliott, top cowhand for the Spurs, was numb with cold as he again pulled up before the half dugout. As he tried to let himself down from the buggy in the teeth of the shrieking wind, Joe Stokes, his boss, hurried out.

"Here, Bill," he said quietly, "I'll take over now. There's a pot of hot coffee waiting for you," and helping him through the doorway Joe then turned back to the wood-studded buggy. Pulling an axe out from in front of the seat and the posts from under it, Joe began splitting stove wood.

Inside the dugout, Bill gulped the hot, black coffee down that was handed him and felt the numbness begin to recede from his body. He wondered how Joe had got it so hot; the stove was certainly sending out little enough heat.

For a moment he had forgotten the woman and her three children; they had drawn back, allowing him full possession of the meager stove.

But as the door burst open and Joe stumbled in with a load of wood, her gasp jerked him back to the present. The little tin cracker box stove began radiating heat again and Bill noticed the tears of gratitude slipping quietly down her face. Why, she was young, too young to be alone on the Plains with three little children. And eating her heart out with fear of what might have happened to her husband. Certainly there was no food on those shelves and the cow chips, their only source of heat had been buried under six inches of snow last night.

That had been the thing that had sent him out again directly after he and Joe had stumbled in on them a while back. This was the first part of December, 1890, and they had been on a business trip to Amarillo for the Spurs, when the blizzard struck. This lonely little half dugout, not far from Floydada and just outside the Matador's lone fence, had seemed a good place to warm up and drink a cup of coffee.

As Bill Elliott and his boss, Joe Stokes, drove on their way again, Bill swallowed hard as he suddenly thought of the source of that firewood. Being a cattleman himself, he knew what the Matadors could do should the discoverer miscreant—and the missing fence posts.

(Note—W. J. Elliott never mentioned this story until many years later when he recounted it in his book, The Spurs.)

Mrs. P. D. Harkins visited her parents, Mr. and Mrs. J. R. McDonald, in Wichita Falls last week.

Mrs. S. D. McMahon and Miss Pearl Hudson were in Dallas Thursday buying merchandise for their jewelry store and dress shop.

Baptist Revival Meeting Begins At Boyd Chapel

Rev. V. D. Walters, pastor, will do the preaching for a revival meeting at the Boyd Chapel Baptist Church, beginning Sunday, November 23 and closing the following Sunday.

Special musical numbers are being arranged under the leadership of Theron Bingham, church song director. Miss Wanda Faye Bingham will be the pianist.

The church has recently decided to purchase new song books and it also plans to repair the building soon.

Cutting Out Stews On Army Menus Now

Area Army veterans and other branch veterans will be glad to learn that stews are about to appear less frequently on Army menus. Fort Sam Houston's Food Service School has a new meat-cutting class learning among other things, how to cut up beef carcasses in such a way that not over 15 per cent will necessarily end up as stew or hamburger.

Cost of training these specialists

the report stated is justified by the fact that approximately 40 to 50 per cent of the cost of feeding a soldier is spent for meat, fish and poultry items in his diet.

Little Miss Suzanne Dana of Amarillo is here for a visit with her aunt, Mrs. John H. Osteen and family.

Dora Culbertson, Local Girl, Pledges TSCW Literary Club

Dora Joyce Culbertson, daughter of Mr. and Mrs. J. L. Culbertson of Hamlin, has finished the informal initiation period and is now an active member of Alice Freeman Palmer literary and social club at the Texas State College for Women at Denton.

Alice Freeman Palmer is one of the 11 clubs on the campus, and the total number of girls pledged by the organizations is 279.

Chores imposed upon the pledges

during the initiation period included the usual "maid service" for old members, carrying loaded suitcases to classes, and counting all the steps on the campus. Some of the clubs required pledges to appear in class without make-up and wearing large ribbons, corsages and signs.

The purpose of the clubs is to stimulate interest in literature, art and music, to promote school activities for members and to encourage the achievement of high scholastic standing.

Dora Joyce is a sophomore and is majoring in Foods and Nutrition.

Dr. W. C. House Is Appointed Head Of Committee at Meet

Dr. Will C. House, pastor of the Hamlin First Methodist Church, was named to head the License to Preach committee at the Abilene district conference last Thursday at Grace Methodist Church in Abilene. District conference will meet with the Rotan Methodist Church next year.

Those attending from the local church were: Dr. House, L. H. McBride, Mrs. E. M. Wilson, Gordon Bennett and Ed Bailey.

Here From Moody.

Mrs. W. C. Calhoun of Moody spent last week-end with her sister, Mrs. H. M. Hooper. Mrs. Hooper and Mr. and Mrs. E. R. Hamlin accompanied Mrs. Calhoun to her home in Moody Armistice Day and Mrs. L. P. Cuzzens returned to Hamlin with her daughter for a visit.

To Corpus Christi.

Mrs. S. H. McPherson and daughter, Sheila LaRue left Tuesday after spending 10 days with their grandmother, Mrs. Dan Stephens and family. Mr. McPherson has been transferred from the Abilene office of the Commercial Credit Association to Corpus Christi.

Mr. and Mrs. J. D. Barnes Jr. and son, Doyle, of Lubbock visited his sister, Mrs. Davis McDonald of Greenville here in the home of his parents last week-end.

Overseas Gifts Must Meet Postal Rulings

If you are planning to mail Christmas gift packages to relatives or friends residing outside the United States and are not familiar with the regulations governing such mailings, it would be wise for you to get in touch with the Dallas office of the U. S. Department of Commerce. The Times has been asked to announce to Jones County folks complete information on regulations controlling the mailing of gift parcels to foreign countries is available without charge at the Commerce Department offices located at 1114 Commerce Street, Dallas, Ray L. Miller, regional director, has announced.

According to Mr. Miller, it is necessary, in addition to conforming with regulations of the government of the particular country to which a gift is sent, that shipper also observe the U. S. export control restrictions as well as the U. S. postal regulations.

Visits in Corpus Christi. Mrs. S. D. McMahon and Mrs. Carl Young accompanied Mrs. L. S. Sparks to her home at Mathis last Monday and also visited in Corpus Christi before returning to Hamlin Thursday.

A. J. Malouf of Lubbock spent Monday night with Mr. and Mrs. George Malouf.

Dr. and Mrs. J. W. McCrary and Sue were visiting in Dallas Armistice Day and Wednesday of last week.

Slight Advance In Cotton Price Tabbed Last Week

Jones County and other area producers were encouraged by the cotton price advances of the past week, according to the Department of Agriculture's release to The Times through the Production and Marketing Administration.

Spot markets of the region were less active, the report shows. Farmers were not selling as freely as during recent weeks. Mills continued to buy cotton, but in less volume than last week.

Demand for textiles continued strong with prices higher for any goods that could be delivered this year.

Picking and ginning continued to make fair progress in the central and eastern sections of the Cotton Belt, but heavy rains in these areas retarded harvesting to some extent. In the southwest and far west harvesting continued to make rapid progress. Frost was reported in Northwest Texas. Harvesting is generally about completed in the southern sections of the belt and has apparently passed the peak in most of the northern sections.

Prices for middling 15-16-inch cotton in the 10 spot markets averaged 32.40 cents per pound on Thursday, November 6, as compared with 32.25 a week earlier and 27.95 cents for the corresponding Thursday a year ago. The average price for the week ended Wednesday was 32.17 cents per pound as compared with 32.56 for the previous week. Spot prices lost ground during the early part of the week, but strengthened on Wednesday when advances a little more than offset the earlier decline. Spot prices at the end of the week continued at about 25 points below December futures.

Food Conservation Should Not Hamper Body Nourishment

Commenting on the food conservation program now being stressed throughout the nation, Dr. George W. Cox, state health officer, this week emphasized the importance of including the proper food requisites in the daily diet, as being important to the maintenance of health.

"Food conservation is an absolute necessity and all Texans are eager to assist in the program. But eliminating needful basic foods will only result in under-nourishment and illness, which can be avoided by observing the Texas food standard in daily meals," Dr. Cox said. "This food standard will enable Texans to utilize available foods, eliminate waste, cooperate in conserving food and spend their food dollar wisely."

The Texas food standard, recommended to Jones County folks by Dr. Cox, provides all necessary food elements, and for each individual includes daily servings of: One pint to one quart of milk, one egg or substitute, one meat serving, poultry or fish, one serving of potatoes, one serving of green or yellow vegetables, one serving of citrus fruit or tomatoes, one serving of other fruit, one serving of whole grain products, other enriched cereals or breads, small amount of butter or margarine with vitamins added, some sweets or desserts in moderate quantities.

"Good nutrition is based upon the observance of good food habits, practiced every day," Dr. Cox declared.

Health Officer Says Pyorrhea in Early Stage Can Be Cured

Contrary to the popular belief that pyorrhea is incurable, this is only true in the most advanced cases, Jones Countians are informed. Dr. George W. Cox, state health officer, advises those persons who even suspect the presence of pyorrhea to seek an early diagnosis from their dentist so that proper treatment can be instituted while the disease is still curable.

"Early detection and proper treatment of pyorrhea represent the formula for a successful cure. This means that the dentist must have an opportunity to discover the presence of the disease at the earliest possible moment since the symptoms are often so vague that the patient is unaware of its existence," Dr. Cox said. "Regular visits to the family dentist are therefore extremely important."

The treatment of pyorrhea is not an involved procedure. In the average early case one of the main therapeutic features is the proper hygienic care of teeth and gums as outlined by any reputable dentist. Carelessness regarding mouth hy-

giene is usually the basic cause for the condition.

The family dentist can usually remove the cause of the trouble, Dr. Cox said, and when this has been done, intelligent routine home care of the mouth will effect a cure in the majority of early cases.

Children playing with matches cause 26,000 fires every year in the United States.

BOYCE HOUSE

"Gives You Texas"

As Col. Ray Leeman sits, smiling and alert, at his desk in San Antonio, he has at his finger-tips the pulse-beat of an empire for 20 years, there probably has been launched or, at least fostered by the South Texas Chamber of Commerce. Leeman aided in founding the 55-county organization in 1927 and has been executive head during its entire history.

Leeman has had a colorful career—veteran of both World Wars, race track driver, poet, pioneer of the automobile industry, civic leader.

He drove in the Gidden Tour, endurance contest for cars over the highways (such as they were) and he raced on Oklahoma dirt tracks. His car crashed and a piece of rail-

ing was embedded in the daredevil's hip. Leeman was born in Dallas in 1880, attended Castle Heights Military Academy in Tennessee and the University of Texas, Austin, where he was baritone in the glee club quartet. He became advertising manager for the Overland car, wrote the first full-page ad in auto history (it appeared in the Fort Worth Star-Telegram.) invaded the middle West where he launched a new automobile, the Henderson, with such fanfare it marked a publicity "high" in the industry's early annals.

The scene was Indianapolis, the day before the races—in fact, rivals said he practically "stole" the Speedway classic to exploit his new car. Mayor Lou Shank, famed for his fight on the "high cost of living," poured a sack of potatoes over the "prow," then scrawled the name on the hood with a pencil, five feet long. The machine then was to be driven into the lobby of a nearby hotel but the designer at the wheel, caught Leeman's eye and whispered "I can't start the blankety-blank thing."

Quick-thinking Leeman stepped

back into the crowd and yelled, "Wait! Don't start it! Boys, let's roller in to the hotel." With a whoop, a dozen men put their shoulders to the car and shoved it down the street. Next day, the papers said the crowd was so enthusiastic it pushed the new machine in triumph into the hotel lobby.

Leeman enlisted in World War I, attended First Officers' Training Camp at Leon Springs (San Antonio), was a Lt. and later a captain in the glorious 90th Division, fighting in the St. Mihiel and Meuse-Argonne offensives, then serving in the army of occupation in Germany. He retained his interest in national preparedness, was a reserve officer, taking part in maneuvers each year and in World War II, was stationed at Fort Sam Houston, with the rank of Lieutenant colonel.

Back in 1919, just out of the Army Leeman returned to his hometown of Mineral Wells. A friend, rich from oil, bought a drug store and gave the veteran a half interest to run it. After a year they sold out, and Leeman became the manager of the Chamber of Commerce there. He gained national recognition by enrolling 600 members and raising \$35,000 for an advertising campaign. He burst into verse about the marvelous mineral water—in fact, Leeman writes the rhymes on his Christmas Cards and composed a ballad, "The Checkered Flag," about a speedway racer.

The West Texas Chamber of Commerce was going to hold a convention in Mineral Wells and Leeman got busy and an auditorium, seating 5,000, was built. A few days before the convention, the city's biggest hotel burned down but all the 50,000 visitors had a place to sleep.

So impressed was the WTCC that the go-getter was made assistant manager in charge of the San Antonio office. He conceived the idea of a South Texas organization, helped create it and has been at the helm ever since.

Accomplishments of the STCC are too numerous and well-known for mention here—but the record is understandable when one considers the picturesque, achievement-studded background of its sparkplug, Col. Ray Leeman.

Wilburn Hudson Is Out of Navy

Wilburn Hudson, son of Mr. and Mrs. Bill Hudson of Abilene, has been honorably discharged from the U. S. Navy after almost two years service.

He visited relatives in Hamlin last Sunday.

Mr. and Mrs. Woodrow Crawford have returned from their wedding trip to Fort Worth and Houston and he is now employed at McCoy Brothers Service Station and Upholstery Shop.

News Briefs From—Fisher County

Approximately 75 attended the Tom Brenneman show put on by the Ladies Auxiliary of the Sylvester American Legion Post. . . . Roby's water test is being delayed because of a breakdown. . . . Fisher County raised over \$800 to be used in Boy Scout work. . . . Approximately 4,700 bales of cotton have now been ginned in Roby. . . . Liberty Baptist Church, south of Roby, observed homecoming and dedication last Sunday. . . . "They're the talk of the coffee stops!"

"That's the new cab that 'breathes'! It 'inhales' fresh air—'exhales' used air—draws in fresh air that's heated in cold weather, and forces out used air."

"Try that seat. It's fully adjustable. They tell me it's got 12 inches more foot room, and eight inches more seating space, too."

"Take a look at that cab, all one piece. Not a rivet or bolt. There's 22% greater visibility—and even more with those new rear-corner windows!"

"You ought to get a look at that new frame. It's REALLY built!"

"This beats any truck I've ever seen! Why, it's built to do ANY job!"

"Have you seen that new Chevrolet truck, Mac? It's the truck with Advance Design!"

"The cab's specially mounted . . . on rubber! It practically eliminates road-shock and vibration!"

"I took a look under the hood and, boy, it's still got that valve-in-head engine! It does more work on less gas than any other engine of its size!"

*Fresh-air heating and ventilating system optional at extra cost.

Area Livestock Men Being Urged to Use More Protein Feed to Save Grain

Jones County and area livestock raisers are being urged by United States Department of Agriculture authorities and other livestock leaders to use increased amounts of protein in livestock rations this season to save scarce grain, make fast gains with less feed, increase production and reduce costs.

Protein, scarce during war-time, now is relatively abundant and cheap compared with grains; and amounts of protein used in livestock rations should be increased to levels that will take full advantage of its amounts of cottonseed meal and grain-saving qualities. A larger 1947 cotton crop has made increased cake available for this purpose.

"Feeds and Feeding," standard livestock text, quotes feeding experiments showing that 100 pounds of cottonseed meal, in a balanced ration, are worth 287 pounds of corn for fattening steers. Five hundred to 600 pounds of corn are saved by 100 pounds of protein supplement in feeding pigs. Dairy cows fed restricted amounts of protein produced 22 to 50 per cent less milk and fat than those fed protein liberally.

In balanced work stock rations, one pound of protein replaces two pounds of grain; and idle work stock and brood mares on pasture may be fed economically on one to two pounds of cottonseed meal without grain.

Proteins save grain because they improve digestibility of all feed; stimulate milk and egg production; are necessary in growth, maintenance and body processes; and, when fed in excess of needs to balance rations, economically meet total energy and fattening requirements under today's conditions.

Grain may be almost entirely eliminated in many cases by proper use of roughages and protein concentrates, supplemented with minerals and, when necessary, with vitamin A. Pastures and range forage, supplemented with cottonseed meal, cake, pellets or cubes, and roughages, should produce much of the volume of meat and livestock products needed this season.

Beef steers on good grazing may be fattened satisfactorily by feeding four to six pounds of cottonseed meal or cake daily per head. In the feed lot three to five pounds of protein concentrate will balance full roughage and limited grain rations. Calves make quick, early gains on their mothers' milk, grazing and one to three pounds of protein concentrate. Brood cows need one to three pounds of protein concentrate daily to supplement grazing, stay in good condition and produce strong calves. Dairy cows on good pasture need a mixture containing 13 to 15 per cent protein. A grain saving mixture is: 100 pounds of ground grain, 100 pounds of cottonseed meal and 200 pounds of hay, ground bundles or cottonseed hulls. To supply at least 20 per cent protein needed when cows are on poor pasture, increase the meal to 200 pounds.

Feeding adequate protein supplement, while limiting market weights to 200-225 pounds, is the best way to save grain in swine feeding. An excellent protein supplement for young pigs, bred sows and sows with pigs is: 40 pounds of cottonseed meal, 40 pounds of tankage or other animal protein, and 20 pounds of alfalfa leaf meal. This supplement may be self-fed, free choice, with grains to young pigs; and hand-fed to sows in a mixture of 20 per cent.

Pigs over 100 pounds in weight do well if self-fed grain and a protein supplement mixture of 60 pounds of cottonseed meal, 20 pounds of tankage and 20 pounds of alfalfa leaf meal. In hand feeding, use 20 per cent of the supplement and 80 per cent of ground grain, changing to 15 per cent of supplement in the mixture when pigs reach 175 pounds.

Two Methodists Attend Northwest District Rally

Dr. Will C. House and Joe A. Simpson, superintendent of the Sunday School, were in Lubbock Wednesday and Thursday to attend the rally of Northwest conference in the last phase of the "Crusade for Christ," a campaign to better Sunday School enrollment and attendance which Methodist Churches have been conducting for the past year.

Thursday they sat in on the called session of the Northwest Texas Conference.

Bishop Charles C. Sealeman was chairman during these meetings and several prominent Methodist leaders were speakers on the program.

25,200 Bales Of Cotton Ginned Now

Census reports shows that 25,200 bales of cotton were ginned in Jones County from the 1947 crop prior to November 1 as compared with 7,451 bales ginned for the crop of 1946 at the same time.

Christmas Plans Being Considered By Local C. of C.

Entertainment committee of the Hamlin Chamber of Commerce was authorized to consider any suitable plans for opening the Christmas shopping season at the regular meeting held Tuesday morning. If any plans are made to mark the turning on of downtown lights and the Christmas season, it will probably be announced soon.

Reports were made to the board of directors by Clyde Angel who represented the local chamber at a meeting held in Lubbock recently in the interest of improved service by the West Texas Transportation Company. Angel stated that representatives from Eastland to Lubbock were present and that a final meeting with the Railroad Commission would be held in Eastland or Austin. He urged cooperation of all merchants and travelers who use the bus lines in any way. Haskell Carter, the Hamlin director of the West Texas Chamber of Commerce, gave a brief report on the recent meeting of that group.

Tentative plans were also discussed for securing a speaker for the annual banquet and for a livestock tour just before the annual FFA stock show later in the winter.

Ed Lockhart Dies Suddenly In San Angelo

Ed Lockhart, formerly of Hamlin died suddenly in San Angelo Monday, November 10.

Mr. Lockhart was born in Arkansas 57 years ago. His parents died when he was very young, and he was reared by an aunt and uncle. He came to Texas in his youth and served overseas with an engineering battalion in World War I. He worked for West Texas Utilities as a linesman for over 25 years, but was seriously injured in a fall from a high line pole near Ozona in 1932. When he recovered sufficiently to work again, he was assigned to the watchman job for that company's plant near San Angelo. He became ill last February with influenza, developed pneumonia and was hospitalized until June, leaving him with a heart ailment which was the cause of his death.

He was married to Violet Crow of Hamlin in February, 1923. To this union were born three children: Edward Earle, who was killed in a truck accident in San Antonio on November 24, 1934; and two daughters, Miss Juandell Lockhart of Beeville and Mrs. J. L. Neff of San Antonio; two grandchildren, James Leslie and Catherine Cecilia Neff.

Mrs. Bill Johnson Dies at Holliday; Funeral Sunday

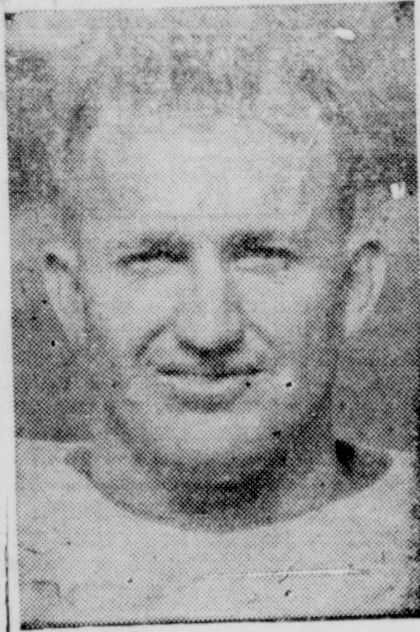

Mrs. Bill Johnson, 48, died Friday at noon in a Wichita Falls hospital after a very brief illness. She was taken to the hospital Thursday from her home in Holliday.

Mrs. Johnson, the former Cora Coble, had lived in Baylor County most of her life. Her mother, Mrs. John Holden, lives in Hamlin.

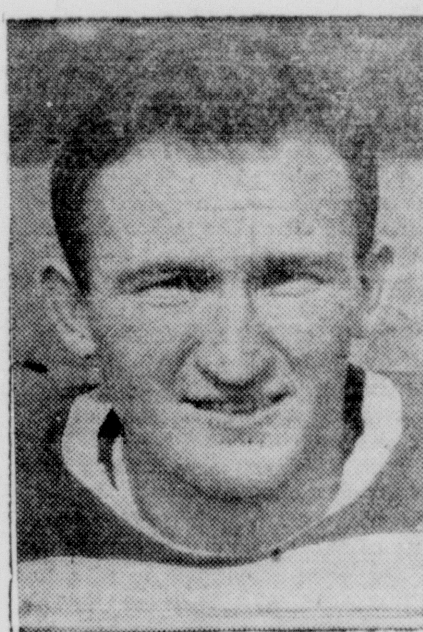

Funeral services were conducted Sunday afternoon at Holliday, with interment at Munday.

She is survived by her husband; two children, Mrs. Ferrel Walsh, Munday; and Mrs. Jack Miles, Vernon; one grandson, Billy Charles Walsh; one sister, Mrs. R. A. Green, Celotex; two brothers, Roy Coble, Colorado Springs, Colorado and James Holden, Gunter; and her mother, Mrs. John Holden.

Mr. and Mrs. Bob May and little daughter, Helen Byrd, of Colorado Springs visited his parents, Mr. and Mrs. M. P. May, Sunday afternoon.

Jack Ellison

Al Johnson

Former Pied Pipers Being Considered For All-Border Conference Laurels

"Cactus" Jack Ellison and Al Johnson, former stars for the Pied Pipers of Hamlin and who have for four years been mainstays for the purple and gold of the Hardin-Simmons University Cowboys of Abilene are being considered for All-Border Conference laurels.

Both Ellison and Johnson are seniors, with each having two Cowboy football letters to their credit, and a third assured. Since graduating from the freshman squad to the varsity in 1942, neither has played on a team losing a single conference game.

In fact, they have been defeated only twice in their varsity careers after winning three and losing three as freshmen. Both defeats were administered in the current season—teams opposing Hardin-Simmons at San Jose State, San Jose, California, 19-12 and Mississippi State 27-7.

Since 1942 Johnson has been the brains of the Cowboy machine; calling signals, passing and punting, while Ellison has been starting left guard for the same number of years. Last season Johnson was co-captain with "Red" Cleveland while Ellison has been co-captain with "Bulldog" Cook this year.

Head Cowboy Coach Warren B. Woodson is high in his praise of both Hamlin lads. "With Johnson calling plays, I always feel perfectly safe. It's just about the same as feeling like I was out there quarterbacking myself," Woodson declared.

For Ellison, Woodson, along with every sports writer and radio announcer who has seen the Cowboys in action this year, has the highest praise possible for a lineman. "Few linemen ever get enough recognition," Woodson stated, "and in my opinion, Ellison has been greatly overlooked."

Although the scribes and announcers might not give as much attention to the linemen as the backs, enemy coaches never overlook the big bruisers in the forward wall. They know that the opposing linemen are the boys who will smack down their blockers and try to stop the ball carrier and coaches fielding this season as well as last have continually worried about the big, hard charging Cowboy line—particularly Ellison.

Although he weighs a neat 194 pounds, Ellison is fast like the wind in his native West Texas. He is usually the first man to reach the receivers on Cowboy punts and has

overhauled supposedly "loose" backs on several occasions to prevent Hardin-Simmons' goal line from being crossed.

Both Johnson and Ellison are all-round boys. In these days of specialists, when few men do more than a single thing in a game, such men as Ellison and Johnson are distinctive standouts as they remain on the field both an offense and defense. On defense, Ellison plays the linebacker's position, immediately behind right tackle, while Johnson usually plays in the secondary, about 15 yards behind left end.

In the offense department, Johnson has established records to be envied by any college player. Previous to the 1947 season, he had had only three passes intercepted in two seasons of play. Including the four interceptions of 1947, his record still stands as one of the best—seven interceptions in more than 200 attempted passes.

Due to the fact that he will allow himself to be thrown for a loss intentionally grounding a pass or taking an unnecessary chance on an interception, Johnson's net gains gained from rushing for the season stands a exactly 0. Counting actual runs made and times caught trying to pass, Johnson has gained 104 yards and lost 104 yards throughout the season.

Johnson has attempted 80 passes this season, completing 31 for 553 yards, a percentage of .387. The Cowboy's ace punter, Al's booming kicks have often pulled his team out of danger and occasionally placed the opposition in trouble down in the coffin corner. He has kicked 30 times for 1,185 yards, averaging 39.5 yards per effort. He has scored one touchdown on a quarterback sneak.

On November 29 the Cowboys will meet Texas Technological Red Raiders of Lubbock in a game heralded as the championship game of the Border loop. Hardin-Simmons has won four conference games to two for Tech. While resting this weekend, the Cowboys will be watching with great interest the Tech-New Mexico game Saturday.

If Tech loses Saturday, the Cowboys can lose one and still share the crown. If Tech wins and then beats Hardin-Simmons, the Ranchers will be out of the picture entirely. If H-SU wins over Tech, they must still get safely by twice-beaten Arizona State of Tempe in order to get away with a clear-cut championship.

Deer Hunters Bag Six Already

Hamlin's party of deer hunters had been very successful, bagging six up until Tuesday, according to reports brought back by Art Carmichael, who came home and brought two deer and returned to the hunt Wednesday.

Those in the party are Ted Russell, E. J. Whaley, Jack Russell, Herman McBride, Art and Stanley Carmichael.

Holly Toler and Thad Hardin, together with a group of out-of-town men, bagged six on their pilgrimage. It is believed Ted Russell will be more anxious about that little deer, his new granddaughter, who has arrived since he left home, than all the deer the group may kill. Grandpa received the news of the arrival of Elizabeth Karen to Mr. and Mrs. Teddy Russell, by telephone Tuesday night.

LaRoy Stubbs is also hunting deer with a group from Knox City. Results have not yet been learned here.

Bryant Joins Staff Of Graham Newsfoto

Announcement was made this week by Willard Jones, publisher of The Hamlin Herald, of the resignation on November 3 of Donald B. Bryant, editor-manager of The Herald for the past year. His connection with the local publication ends on November 29 and on December 1 he will join the staff of the Graham Newsfoto as managing editor and assistant publisher.

Graham, well-known as the gateway to Possum Kingdom Lake, is a town of about 8,000 population and the Newsfoto is one of two newspapers published there.

Mr. and Mrs. Finis Forgy of Bridgeport have accepted the places as editors and managers. They have had years of experience in the newspaper field. The Forgy's will be on the job Monday week.

Anson Tigers Drown Pipers In Rain, 26-2

Hamlin Stores Will Be Closed For Thanksgiving

Union Service Will Be Held Thursday Night

Thanksgiving will be observed as a holiday in Hamlin next Thursday with business houses being closed all day. This day was set aside as an official holiday by the Chamber of Commerce early this year.

Shoppers are urged by the merchants to keep this in mind when buying groceries early in the week.

A special union Thanksgiving service will be held in the auditorium of the First Baptist Church at 7:00 o'clock p. m. with Dr. Will C. House, pastor of the First Methodist Church, bringing the main Thanksgiving message. The public is extended a cordial invitation to attend this service and take part in giving thanks at this season.

An offering will be taken and will be presented to the Hamlin Memorial Hospital to be used to buy equipment or anything most badly needed by that institution.

The Hamlin Herald will be issued a day early, on Wednesday, in order that the office force may enjoy a holiday and subscribers can get their copies before Thanksgiving. Advertisers are urged to remember this and prepare their copy early Monday.

Hamlin High and Elementary Schools will be closed Thursday and Friday according to Superintendent I. R. Huchingson.

Many college students from various campuses over the state are expected to be at home with their families here for the Thanksgiving holidays.

Nazarene Zone Meet To Be Held Here Tonight

Churches of the Nazarene from Abilene zone will meet at the Hamlin Church of the Nazarene tonight (Friday) to hear Rev. L. J. DuBois, general secretary of the Nazarene Young Peoples Society, of Kansas City, Missouri, according to an announcement by the pastor, Rev. J. T. Crawford.

The meeting will begin at 7:00 o'clock p. m. and representatives of Abilene, Mt. Zion, Merkel, Stamford, Sweetwater, Buffalo Gap, County Line and Hamlin are expected to be present.

Rev. DuBois is a very outstanding speaker and the public is invited to hear him. He will be accompanied by the district president, Rev. D. M. Duke of Abilene and district superintendent, Rev. W. B. Walker.

"The Church of the Nazarene invites you to the regular Sunday services," Rev. Crawford states. Sunday School begins at 9:45 o'clock a. m. and preaching services at 11:00 o'clock a. m. and 7:00 o'clock p. m. and the young people's service at 6:15 o'clock p. m.

Four Square Group Having Attendance Contest Here Now

Rev. Alice Harrel, pastor of the Four Square Gospel Church of Hamlin, has announced that a Fisherman's Contest for the purpose of improving Sunday School attendance is now in progress at that church. The contest was started October 1 and will continue through December. Anyone who is not in other churches is extended a special invitation to be present next Sunday morning at 9:45 o'clock a. m. when the Sunday School program begins. Morning preaching service begins at 11:00 o'clock a. m. and in the evening the worship service gets underway at 7:00 o'clock p. m. You are cordially invited to these services.

H. C. Stanley Jr. Tells Lions Club County Farming Progressing

"Agriculture, like business and science, is making constant improvements," County Agent H. C. Stanley Jr. told members of the Hamlin Lions Club at their noon luncheon meeting Tuesday. Stanley told the group about improvement that were being constantly made by progressive Jones County farmers and had samples of several different kinds of new combine maize strains that are proving very successful and in many cases will probably replace older strains that have been used in past years.

Stanley also touched briefly on improved wheat strains and other modern methods of agriculture that help to keep this area in the farm forefront. His talk was enjoyed by all.

Rainfall Totalling 1.92 Inches Brings Relief to Hamlin

In spite of the cold, damp days and the sloshy, muddy ground, Hamlin area citizens have worn their best, "Sunday go-to-meeting" smiles the past week. Temporarily at least, the summer-long drought which had extended through the fall and into winter days, has been broken.

Rain gauges at the City Pump Station have recorded a total precipitation of 1.92 inches since last Thursday afternoon, according to Bill Rountree. Last Thursday's rain measured .60 inch on Sunday, Monday and Tuesday a total of 1.32 inches was measured.

Farmers and ranchers in general were jubilant over the badly-needed rain, but wheat growers were especially boosted in spirit as the slow rain all soaked into the ground in this area and "dusted in" wheat will soon be up and getting a good start for next year's crop.

Bowen Pope's Brother Dies Wednesday At Lubbock

J. B. Pope, 82, passed away early Wednesday morning at his home in Lubbock after a lingering illness.

Funeral services were conducted at the First Baptist Church in Lubbock Thursday.

He is survived by his widow and 10 children. This was the first death in that family.

Anson High School disappointed Tigers—disappointed because they failed to stop Stamford's championship drive—drowned their sorrow and Hamlin's Pied Pipers at the same time, on a rain-soaked gridiron at the county seat last Thursday night. The Tigers struck twice in the opening two or three minutes of play to trounce the local lads, 26 to 2.

Statistically speaking, Anson had 16 first downs to Hamlin's 10, gained 350 yards rushing to 106 for the Hamlin Pied Pipers. Hamlin did bet.

Pipers Last Chance At Haskell Friday

The lowly Pied Pipers will have their last chance to break in the "win" column Friday night at Haskell when they meet the Indians. Who can coast of only a single victory and that over Albany. In spite of the fact Hamlin only tied Albany, they are conceded a good chance to defeat the Indians, provided Jack Owens sees considerable service.

ter in the passing department completing three of 16 attempts for 58 yards, while the Tigers air attack was a complete failure.

George Owens, Anson left end, dashed 16 yards on an end around sprint to score in the first minute of play, and shortly afterward Charlie Pearce intercepted a Piper pass and ran 27 yards for the second marker.

J. C. Whittaker added the last two touchdowns, scoring once in the third period on a one-yard plunge, and again in the final frame on a five-yard dash through the line.

Robert Caffey booted two extra points from placement.

The Pipers allied two points in the final stanza on a safety.

The Anson line, looking considerably stronger than at any time this season, held the Pipers at bay most of the game, with the second string taking over during the late stages.

Farm Cash Income Shows Brisk Gain For Past Months

Farm cash income in Texas staged a brisk August to September gain to boost the seasonally-adjusted index up to a point five times above its prewar levels. The Herald was informed by the University of Texas Bureau of Business Research this week.

The 42 per cent August to September hike bounced the index up to 506.3, based on the prewar average of 100 (base years 1935 to 1939). The part played by a rise in prices is different to determine, but increased production on the state's farms has augmented the rising prices of farm products to bring in more intake to Texas farmers than they have ever had before.

Cotton lint and cowpea prices were down during the month but prices of all other Texas farm products advanced. Grain prices soared as high as the 18 per cent wheat price rise over its August level, livestock prices were on the march upward, and poultry and egg prices were far above their August marks.

Estimated farm cash income for the state reached \$221,029,000 in the month of September, pushing the total intake for the year to date, January through September, to \$1,138,384,000. Income stood 43 per cent above its total for the same period last year. Greatest gain for the year to date came in the Northern High Plains district, where income registered a 123 per cent increase over the same period last year. All other districts reported farm incomes gains with the exception of the Trans-Pecos area and the Lower Rio Grande Valley, where farmers were not doing as well as they were at the same time last year.

The Northern High Plains also led in dollar-intake for the year to date, chalking up a \$905,740,000 total. Running second was the Black and Grand Prairies area, where farm cash income for the year to date reached \$182,095,000.

Farmers Are Better Off Now Than In Many Previous Years, Show Gains

Farmers of Jones County and those of the country as a whole are better off than they have been in many a year.

The farmer is one of the most favored in that lucky portion of the population who have been benefitted rather than injured by inflation.

Many farm experts feel that the farmer even now is not earning as

much as he should, considering his contribution to the national economy. Nevertheless, Department of Agriculture statistics indicate his economic position has improved far more, in proportion, than that of most groups.

The key to the farmer's present well being is the fact that his earnings have increased substantially

more than his costs of production and his living costs. These figures from the Bureau of Agricultural Economics (BAE) show what has happened:

The prices he receives for his products have increased 167 per cent above the low averages of 1935-1939. At the same time he has increased the volume of the goods he markets by 52 per cent.

He is getting a larger share of the money that people pay for farm products. In the 1935-1939 period only 40 per cent of the retail cost of food went into the farmer's pocket, the rest of it going to the "middlemen," the marketing agencies. Since 1943, however, he has received from 52 to 56 per cent of each dollar the consumer spends for farm products.

The prices the farmer pays have increased only 102 per cent in the period. This is divided between his costs for commodities used in production, which have increased 93 per cent, and what he pays for commodities he uses in family maintenance, which have risen 110 per cent.

Effect of all this shows up in the BAE's estimate of the farmer's net income. This rose from \$5,648,000,000 in 1940 to \$18,089,000,000 in 1946. The BAE looks for this to increase by 20 per cent this year.

The per capita annual net income of the farm population rose from \$173 in 1939 to \$620 in 1946. However, the farm population still has less than half the per capita income of the non-farm population, which was \$1,325 in 1946.

But the farmer's income rose 258 per cent in the period when non-farm incomes rose only 100 per cent. Furthermore, whatever income he receives from non-farming sources—such as slack season work in canneries or driving a truck, and return from investments—is not included.

The farmer has been able to accomplish all this because of the enormously increased demand for his products. In addition to the gigantic shipments abroad, he has found a greatly enlarged domestic market. Not only has the population increased by 11,000,000 between 1938 and 1946; the per capita consumption of food in the United States last year was 18 per cent higher than in the years 1935-1939. People in general have more money, and they are spending a larger proportion of it on food.

For the future the farmer's prospects look reasonably bright to the agricultural economists. Although food prices react more drastically to market conditions than other prices, the economists expect the demand for food to continue at high levels through next year and perhaps for many years ahead. And a steady demand will keep most prices up.

Vet Service Officer Writes "Open" Letter

Following letter has been received by The Herald from the recently appointed Veteran Service Officer for Jones County, Landon V. Davis:

"Dear Friends:
Your new "hired hand," the Veterans County Service Officer, bids you "howdy." The Jones County Commissioners Court under the authority vested in Senate Bill No. 44, "The County Service Office Bill," enacted by the 49th Legislature, has provided, by appointment, a Veterans Service Officer for Jones County. This place has been filled, successively, by: Roy Duke, William B. Teague and W. M. Nix, the last of whom, Nix, recently resigned and this writer was appointed to the place.

The duties of the County Service Officer, as outlined in the Bill, are: to aid all residents of the county providing such officer, who served in the military, naval or other armed forces, or nurses corps of the United States, in preparing and presenting claims for compensation, insurance or other items or benefits to which they may be entitled under the laws of the United States, or of any state, or such laws as may hereafter be enacted.

This writer is, himself, a veteran of World War I and has had several years experience in veterans service work, as a Post Service Officer of the American Legion; the most recent tour of which was Service Officer of Keiffer Patterson Post No. 146, of Hamlin. The law specifies that the County Service Officer be a veteran who is experienced in veterans service work.

The purpose of this letter is to solicit your cooperation, to the end that the veterans of Jones County

and their dependents get the service to which they are entitled. Veterans benefits are our business.

Sincerely,
Landon V. Davis,
County Service Officer,
Anson, Texas."

On Vacation.

Mr. and Mrs. Ernest Jenkins and daughter are on vacation this week and are visiting his brother Mr. and Mrs. John Jenkins at Sundown. He is an employee of the Santa Fe Railway Company.

Brother Dies at Sherman.

Mrs. J. H. Burkett received word Thursday afternoon that her brother, Ike Ireland, had died in Sherman. She was unable to attend the funeral services Friday due to the illness of her granddaughter, Mary Beth Bryant.

"Wiggy" Hamric To Twirl Baton At Sugar Bowl

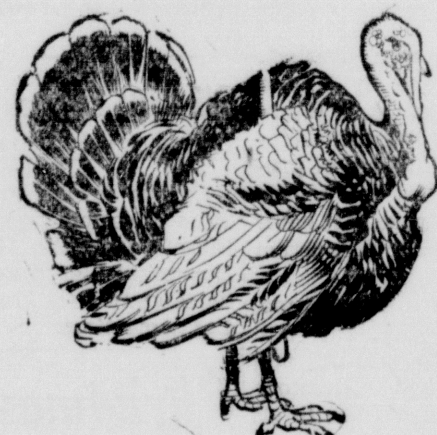

Ada Lou (Wiggy) Hamric, formerly of Hamlin and now drum major of the Drum and Bugle Corps of Orange High School, has been invited to perform at the Sugar Bowl in New Orleans, Louisiana on New Year's Day, according to word received here by friends.

Miss Hamric is the daughter of Mr. and Mrs. Bill Hamric, and lived in Hamlin until three years ago when the family moved to Orange. She is a senior and her grandpar-

ents, Mr. and Mrs. W. C. Elkins reside in Hamlin.

Necessity Finds a Way.
Little Mary was left to fix the lunch, and when her mother returned with a friend, she observed that Mary had the tea strained. Mother—"Did you find the lost strainer, dear?" (as they were eating).
Little Mary—"No, mother, I used the fly swatter."

Not So Interesting Any More.
"What's your favorite book?"
"My bank book, but even that is getting so it's lacking in interest."

WHAT WILL THE TURKEY THINK?

What will that big, fat, stuffed golden brown turkey think of you if you don't look neat and trim on Thanksgiving? Better have those ducks cleaned, pressed and freshened up.

Members of the VFW and all ex-servicemen who had a part in the very impressive and fitting memorial

service on Armistice Day in Hamlin deserve our congratulations for a job well done. These former soldiers, sailors, flyers and marines looked nice in their uniforms and brought us soberly back to the realization that our freedom has been bought with a great price. It is the duty of every person to do all that is within his power to preserve this freedom and bring about that "Peace" for which those young men fought and for which their buddies paid the supreme sacrifice.

Elmer Feagan was overheard tell-

ing a certain groceryman's wife this, "You know what an optimist is? He is the man who goes in a grocery store with only \$5 and picks up a basket in which to carry his purchases."

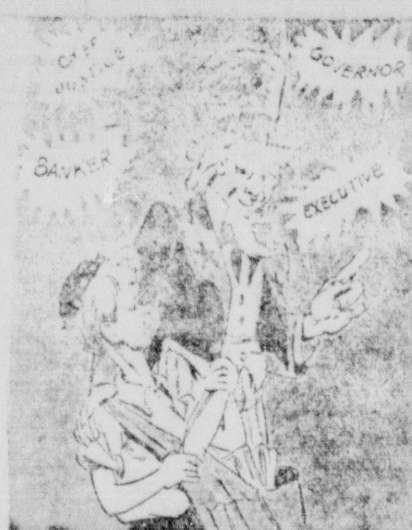

The Herald is in receipt of a letter addressed to Santa Claus, North Pole. We couldn't resist opening the old fellow's mail before forwarding it and to behold there were three full pages of scribbling, which we cannot translate, not even the name we can make out. Maybe Old Saint Nick has a language of his own that only he and his little friends understand. Anyhow, we will see that the communique is delivered to the proper person and if any other children desire to have their letters to Santa printed we will be happy to do so. But please, use our language for our convenience.

We noticed in The Post Dispatch we merchants of that city are complaining about peddlers being allowed to sell war surplus goods on the street. We have often wondered just why such a practice is allowed in any town unless it is a local person who has rented a building and pays taxes the same as other businessmen. Somehow, it just doesn't seem fair to other business institutions.

Thanks for the interest you have shown in our little boy, David, who has been hospitalized for the past 14 weeks. Pardon us, but we would like to pause here and pay tribute to that little man, who has waged such a magnificent fight for life, the like of which doctors and nurses of long experience at the Baylor Hospital have never seen before.

David, the son of very close friends of the writer's was the most active

Uncle Sam Says

Many tributes will be paid newspaper boys on annual Newspaper Boy Day this month. Thousands of newspaper boys are members of thrift clubs, sponsored by the International Circulation Managers' Association. Perhaps no greater honor will come to these boys than to point them out as school boys who are demonstrating how to go into partnership with their Uncle Sam in building a growing fund for future education. By investing their newspaper boy earnings in U. S. Savings Bonds regularly, they are getting their Uncle Sam to pay part of the expense. Your bond officer or banker will explain how regular bond buyings can provide four years of college education, one year of which will be paid for by your Uncle Sam as interest on your investment.

U. S. Treasury Department

child one can imagine. He is red-headed and as usual, the type that was always ready for a good fight with his playmates if the situation seemed to merit such action. In spite of his mischievousness, he was a friend to all, the whole town loves him and is vitally concerned about his welfare. Even though he has been forced to lie still in that hospital bed these long weeks, with every type of painful treatments being ad-

Turpentine on Calves Solves Orphan Matter

A touch of turpentine is all you need to find a mama for an orphan calf.

Jones County stock raisers are given this simple rule by Jones County Farm Agent H. C. Stanley Jr.

According to Stanley, one cattle raiser puts a few drops of turpentine on the backs of all her calves, orphans and natural calves alike. The turpentine destroys the natural

scent of the calves, and makes them all smell the same. Then, the cow, who apparently goes quite a bit by her sense of smell, cannot tell the difference and lets the orphans nurse without kicking about it.

The stockman tells the county agent, "All you have to do is destroy the scent of the natural calf. I never have any trouble making my cows let orphan calves nurse."

The hummingbird is the only bird which can fly straight up, down, backward and forward.

For Easier, More Profitable Farming . . .

There are many types of equipment on the market today to save the farmer time and labor . . . make farming easier and better.

Beta Sigma Phi Pledges Initiated At Banquet Friday

Members of Beta Sigma Phi held a formal banquet Friday evening in the Home Economics Room at the Hamlin High School in honor of the pledges.

Two long banquet tables were laid with white lace dollies and centered with beautiful arrangements of yellow chrysanthemums flanked with black lighted tapers, carrying out the club colors very effectively. The attractive place cards featured the club flower, the rose, handpainted in yellow and the Beta Sigma Phi crest.

The menu consisted of fruit cocktail, pineapple and cottage cheese salad, fried chicken, english peas, creamed potatoes, gravy, hot rolls, pumpkin tarts and coffee.

Immediately following the dinner, the group went to the home of the president, Mrs. Kenneth Parker. A very impressive initiation service was conducted by Mrs. Parker, Mrs. Perry Sparks and Mrs. Stanley Carmichael. New members are Mrs. Pat Marlowe, Mrs. Elizabeth Holden and Mrs. John F. Green Jr.

A ceremony for the new pledges was conducted for: Mmes. Vernon Middleton, Carl Andress, R. N. Faurey and Charles Gardner.

Following the departure of the four new pledges, sorority pins were presented to the new members in a special service.

Those attending were: Mmes. Clifford Rapnolds Jr., Perry Sparks, Kenneth Parker, Stanley Carmichael, Pat Marlowe, Elizabeth Holden, John F. Green Jr., Vernon Middleton, Carl Andress, R. N. Faurey and Charles Gardner.

Mrs. J. L. Maberry Celebrates 85th At McCaulley Home

Mrs. John L. Maberry, who just two months ago underwent a serious major operation, celebrated her 85th birthday, November 9, with a reunion dinner in her home east of McCaulley.

A total of 57 relatives and friends attended the dinner, bringing gifts, cards and flowers to the honoree. Mrs. Maberry is the mother of 12 children, 10 of whom are living. She has 42 grandchildren.

Mrs. Jack Farrow baked the beautiful birthday cake for the celebration.

Grandmother Maberry and her only brother, Jim Harris, have made their home together the eight years since the death of her husband.

Guests who attend the gala celebration were: Mr. and Mrs. Dave Maberry, Mr. and Mrs. J. E. Frank Maberry, Mr. and Mrs. S. E. Blakely, Jim Harris, Mr. and Mrs. L. R. Andress and children, Mr. and Mrs. Jerry Maberry and son, Mr. and Mrs. Jack Farrow and son, all of McCaulley; Mrs. Della Smith of Sweetwater, Mr. and Mrs. Clinton Maberry and children of Dallas, Mr.

and Mrs. Ray Maberry and children of Hamlin, Mr. and Mrs. L. B. Maberry of Hamlin, Mr. and Mrs. Willard Maberry and daughter also of Hamlin, Grover Seaton, Mr. and Mrs. Ira Seaton, J. C. Seaton and Era Seaton of Brownfield, Mr. and Mrs. Walter Darling and children also of Brownfield, Mr. and Mrs. B. D. Seaton and children of Rotan, Tommie Flennigan of Ropes, Mrs. Rose Seaton of Andrews and Mr. and Mrs. Albert Maberry and children of Hamlin.

Mrs. Ed Bailey Hostess Friday To Garden Club

Hamlin Garden Club met in the home of Mrs. Ed Bailey Friday afternoon. Mrs. H. O. Cassle, president was in the chair. Mrs. C. P. Yates led the opening prayer.

Roll call was answered with, "A Favorite Flower Combination in My Garden." Mrs. Luther Marr discussed, "How to visit A Nursery."

"Plan of the Home Grounds" was the topic on which Mrs. J. W. McCrary spoke. Miss Ella Temple and Mrs. W. J. Poe had several very attractive arrangements of flowers on display which would be suitable for Thanksgiving.

A total of 21 members were present.

The next meeting will be December 12 in the home of Mrs. Ed Britton.

Parents Warned About Severity Of Scarlet Fever

State Department of Health has issued a warning to Herald readers in regard to scarlet fever, since the number of cases usually increases during the fall months. The majority of deaths from this disease occur during the months from October through February.

Scarlet fever is a very contagious and serious disease. Grown people may contract it, but children under 15 years are especially apt to have it, if exposed. It is especially dangerous for children under 15 years, and Dr. George W. Cox, State Health Officer, warns mothers to "not let your children take any chances with scarlet fever. Call the doctor as soon as any suspicious symptoms appear."

Dr. Cox said that the first signs you may notice are that the child seems tired, restless and out of sorts. Usually, there is a sore throat, chills, vomiting, or in some cases convulsions and fever. The skin is dry and hot, the tongue is furred, and, under this furry covering, it is red and swollen. In ordinary cases the early signs are followed in a day or two by a rash. Little flat red points, close together, appear first on the neck and chest and soon the rash, very red in color, spreads over most of the body.

The doctor is required by law to report the case to the local health officer. It is important that the family follow carefully the quaran-

Blessed Events

Mr. and Mrs. Teddy Russell are the proud parents of a daughter, born Monday morning, November 17 at a Roten hospital. She tipped the scales at seven pounds and eight ounces and has been named Elizabeth Karen.

line instructions which the health officer issues, since a severe or fatal case of scarlet fever may develop from contact with some one who has only a light attack. Children who have scarlet fever, or who have been exposed, must not return to school until permission is given by the health officer and physician.

The volume of production of all U. S. crops this year is expected to be a little over last year's high record, well above the 10 year average, and slight above the average for U. S. farmers' best years, 1942 to 1946.

His End Was Theirs.

The despondent officer left headquarters and climbed in the jeep. "Where to, sir?" asked his driver. "Drive off that cliff, seaman," he replied, "I'm committing suicide."

Cotton Is Best Fiber.

Cotton is the best fiber I know of. We in the rayon industry would give a whole lot to be able to produce a cellulose molecule like that of your natural fiber.—Dr. Fred Bonnet, American Viscose Company.

Women Can Food For Orphan Home

Mmes J. R. Elliott, Jeff Cheshier, Bruce Hallmark, Gid Howington, F. M. Crow, George Miller and C. B. Rowland met in the home of Mrs. W. E. Crow Thursday for the purpose of canning chow-chow and sweet potatoes for Tipton's Orphanage.

Several others had planned to participate in this splendid work but were unable to do so due to the inclement weather.

Three gallons of chow-chow was made and five gallons of sweet potatoes were canned.

Moves To Temple.

Mrs. W. R. Wilkerson, life-time resident of Hamlin, left Wednesday for Temple, where she will make her home with her daughter, Mrs. L. K. Ballew and family at 1206 9th Street. Mrs. Wilkerson and Mrs. Ballew will operate a tiny tot shop there.

Mrs. Kelly Scott was taken to a Stamford hospital Monday for treatment of a severe chest cold.

Here For Wedding.

Miss Hazel Adkins of Pasadena, California arrived here Sunday to attend the wedding of her brother, Glen D. Adkins and Miss Joan Owens. C. J. Adkins of Houston arrived Wednesday to be best man in the ceremony, which was set for Thursday at 6:30 o'clock p. m. in Lubbock. They are visiting in the home of their sister, Mrs. Dalma Shelburne and family, while in Hamlin.

Mr. and Mrs. Shelburne and Gene, Miss Adkins and Mr. Adkins left Thursday afternoon for Lubbock.

Miss Adkins is employed by the Giannini Auto Flight Instrument Company in Pasadena, California. She spent Sunday night and Monday in Lubbock visiting her brother.

Which Be It?

A woman phoned her bank to arrange for the disposal of a thousand dollar bond.

"Is the bond for redemption or conversion?" a clerk inquired.

There was a long pause, then the woman asked: "Am I talking to the First National Bank or the First Baptist Church?"

Thanks, I'm

Personally Speaking

Mr. and Mrs. A. L. Killebrew of Jackson, Mississippi, are here for a visit with their daughter, Rev. Alice Jarrell.

Mrs. B. Henderson was brought home Sunday from Rotan hospital, where she had been several days for treatment.

T. Roy Finley of Abilene Christian College spent the week-end in the home of Mr. and Mrs. Harold Bonner. He is a music major at that college.

W. F. Johnson was rushed to a hospital for treatment Tuesday.

Clee Barnett has gone to Alice

where he is employed. Mrs. Barnett hopes to join him there soon to reside.

Mrs. D. W. Carlton has been brought home from Fort Worth and is reported getting along nicely at the family home.

Mr. and Mrs. Austin Poe arrived home Tuesday afternoon from Montana, where they had been for the past three months.

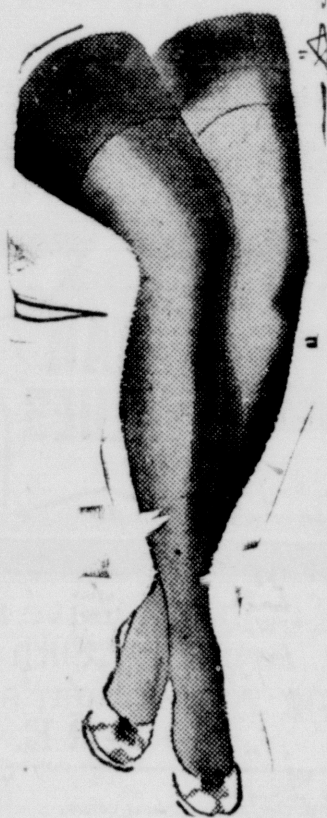

Mr. and Mrs. I. C. Fudge Jr. and Billy Wayne of Littlefield visited his parents, Mr. and Mrs. I. C. Fudge Sr. Armistice Day.

Barry Moore, son of Mr. and Mrs. Fred B. Moore Jr., was ill with a severe cold early this week.

Veterans' News

Q.—What are some of the advantages offered to the veteran by the GI Bill if he buys a home under its guarantee loan provisions?

A.—With a VA guaranty the veteran has a better chance of inducing a lender to make a loan. The lender may even consider making the loan where no down payment is to be made on the home. Another advantage is the four per cent rate of interest, which is low.

Q.—Is it true that if I secure a guaranteed loan, VA will pay part of the loan without cost to me?

A.—Yes, Veterans Administration pays to the lender an amount equal to four per cent of the guaranteed portion of the loan. For example, if the guaranteed portion of your loan is \$4,000, the lender will receive \$160 from VA to credit to your debt and you will not have to repay this amount to anyone.

Q.—Can the veteran get a guaranteed loan for any type of business?

A.—Yes, the veteran can get a guaranteed loan on any type of legitimate business on which the lender is willing to lend money.

Q.—Can I get a guaranteed loan to buy furniture for my home and a pleasure car?

A.—No.

Q.—My son, who was blinded while in the service during World War II, and I would like to know if he is entitled to receive a guide dog at government expense?

A.—Yes, a service connected blind veteran is entitled to receive at government expense a guide dog and various devices necessary to assist him to overcome his handicap.

Q.—Does a veteran have to have a 10 per cent or more service connected disability to be eligible for outpatient treatment?

A.—Any veteran with an established service connected disability is entitled to outpatient treatment for service connected disability, regardless of the degree of disability.

Q.—If I go to a private physician to determine whether I need hospital treatment or domiciliary care will the government pay the cost of the examination?

A.—The government will pay the cost of examinations by a private physician only if Veterans Administration has given the physician prior authority for such examination.

Q.—Please tell me what veterans are eligible to have prescriptions filled at government expense?

A.—If the veteran's physician has been authorized by Veterans Administration to treat the veteran, VA will pay cost of the prescription if it is used in treatment of the veteran's service connected disability.

Cottonseed, Once Thrown Away, Is Worth \$90 Today

According to press dispatches from the Department of Agriculture at Washington, cottonseed, once thrown away as waste, is bringing an average price of \$90.60 per ton over the country. The price advanced \$15 per ton during the month ended October 15.

Price being paid by gins in Snyder this week was \$80 per ton, with delivered price at crushing mills in the area around \$90.

Between 1909 and 1914 the average price of cottonseed was \$22.55 per ton, and in the period from 1935 to 1939 the average price was \$27.52 per ton.

Cotton itself is doing well as a revenue producer for the farmer, the bureau reports. The average price as of October 15 was 30.65 cents per pound, as compared with 12.4 cents per pound average between 1909 and 1914 and 10.34 cents per pound average between 1935 and 1939. But the October 15 price was about seven cents below the average price of October 15, 1946. A year ago, cotton's average price was 37.69 cents per pound.

The Department of Agriculture looks for the world to produce in 1947-48 a total of 26,100,000 bales of cotton. This is 21 per cent more than the preceding year's exceedingly small crop of 21,500,000 bales. Of the total, the U. S., according to latest estimates, will produce about 11,508,000 bales and Mexico will contribute 464,000 bales.

Seedlings Available At Cost for Farmers From State Nursery

The state's first norther brought a reminder to Jones County folks from the Texas Forest Service at A. & M. College that tree planting time is just around the corner, and that seedling orders need to go in as soon as possible.

County Agent H. C. Stanley says that the Texas Forest Service at the state nursery near Alto will have almost 18,000,000 seedlings that have been selected for adaptability in Texas. The trees will be sold at cost of production for use in starting timber and fence post plantations and for wind-break purposes. The seedlings are not to be sold for landscaping.

D. A. Anderson, in charge of the state nursery, reports that 15 different kinds of trees will be available from the nursery by late December.

For plantings in West Texas there are the red cedar, Arizona cypress, Russian mulberry, green ash, thornless yellow locust, desert willow, western honey pine and pistacia.

Fowler says prices on the trees are \$3 per 1,000. The prices are f. o. b. the nursery at Alto.

Further information on ordering the seedlings may be obtained from the local county agent or by writing to the Texas Forest Service at College Station.

Paper Advertising Lineage Climbs Up

Advertising in The Herald and other Texas newspapers moved upward for the second consecutive month in September. This completely recovered them from the mid summer sluggishness. The Herald was advised by a news release from the University of Texas Bureau of Business Research this week.

Served a la Moderne.

Hinky—"Boy, did my gal hit last night!"
Dinky—"How?"
Hinky—"When the waiter asked her how she'd like her rice, she said, 'Thrown at me!'"

Uncle Sam Says

Millions of my young nieces and nephews are returning to school to learn from their teacher, schoolmates and books a way of life. Besides grammar, history, arithmetic, home economics and a variety of other courses, they will come face to face with sportsmanship, honesty, self-reliance and the habit of thrift. Facts crammed into the heads of Willie and Jane will come in handy, but thrift is something which will be vital to their well-being every day of their lives. Of course the habit of thrift may be acquired in many ways, but a sure way is the participation of my young nieces and nephews in the United States Treasury Department's School Savings Program.

Cotton Balance Sheet In Nation Losing Ground

United States cotton balance sheet was losing ground during October. Hamlin area cotton farmers were advised this week from the University of Texas Bureau of Business Research. The estimated year's supply of cotton in the United States was at its lowest October 1 point since 1924.

Prospects for this cotton year indicate a 1947-1948 supply totaling 12,589,000 bales, not counting exports during September, compared to the 12,268,000 bales supply indicated on October 1 of 1924.

Dr. A. B. Cox, professor of cotton marketing at the University's College of Business Administration, has placed world production of commercial cotton for this year at 24,300,000 bales, nearly 2,000,000 bales less than the probable world consumption.

Dr. Cox, explaining why the cotton futures market has had to buy and carry an extremely large amount of cotton, said, "The unusually dry fall and larger supply of pickers have caused this crop to be harvested at an uncustomary, rapid fire, and farmers have generally sold their cotton as harvested."

Price movement in the months ahead, as pointed out by Dr. Cox,

must be judged in the light of probable decline in exports, 1,000,000 bale decrease in United States consumption, the hike in world supply which still fails to meet estimated world consumption, the two cents per pound price decline since last year, and the slump in the value of money in terms of buying power.

Dr. Fred Fisher Concludes Talks At First Baptist

Dr. Fred L. Fisher will conclude the series of meetings at the Hamlin First Baptist Church tonight (Friday) on "What Baptists Believe."

Large crowds have been attending these service every night this week. Monday night the Training Union was honored; Tuesday night, the Women's Missionary Society; Wednesday, the Sunday School department; Thursday night, the men of the church and tonight (Friday) will be "Everybody's Night." A social hour will be enjoyed in the church basement at the close of the service.

Dr. Fisher, professor of Bible at Hardin-Simmons University, Abilene, is a very impressive speaker.

More Than Money's Worth.

Customer in drug store (on Sunday morning).—"Please give me the change for a dime."

Druggist—"Here you are. I hope you enjoy the sermon."

Rabies Occurs in More Than Hot Days Says Cox

Contrary to popular belief of the Jones County people rabies is more prevalent in winter than in the so-called "dog-days" of the hot summer months.

In a statement released to The Herald this week by Dr. George W. Cox, state health officer, it was disclosed that of all animal brains submitted for examination by the state laboratory in January 1947, 33 per cent tested positive for rabies, while in the mid-summer month of July only 18 per cent were positive. "If all stray dogs were destroyed, and all pets vaccinated for rabies, it would go far toward stamping out this justly feared and always fatal disease," Dr. Cox said.

The doctor stressed that dogs suspected of having rabies should not be killed immediately, but should instead be confined 10 days for observation to see if the disease develops. If a dog sickens and dies during the observation period, the head should be packed in ice and sent to the State Health Department for examination. Freezing the brain, or killing the dog permanently, or in such a manner as to injure the brain may make correct laboratory findings uncertain, if not impossible.

Deadline for Mailing Gifts Overseas Nears

Only a few more days of time is left to mail Christmas packages to men in the service overseas in order that they may receive their packages of cigarettes and lighters, toiletries and other comfort articles. Mailing time was set by Army departments from October 15 to November 15.

It is advised that discretion in the choice of gifts should be used this year as the soldier overseas now is amply provided with clothing and food. He can also purchase candy.

Seriously Ill.

O. L. Cohorn of the Hilton community was taken to a Abilene hospital Sunday for treatment. He became seriously ill Saturday night and his condition required blood transfusions early this week.

Attend Funeral.

Mr. and Mrs. P. D. Funderburk and sons attended the funeral services for her father, Fred Copple, at Harper Sunday. He died Friday night after a lingering illness.

Texas Press Association Sees Dawn of A New Era

December 1 will mark the dawn of a new era for the Texas Press Association in the opinion of Paul Fulks, president of the Texas association and publisher of the Wolfe City Sun.

On that date the daily and weekly newspapers of Texas join hands to open their own central office with a full-time staff of experienced press association workers in charge.

Texas Press Association directors have contracted with Vernon T. Sanford, for 13 years secretary-manager of the Oklahoma Press Association, to manage the Texas association. Officials of the Texas organization are now endeavoring to locate office headquarters in Dallas.

Said Fulks, "Our central office will issue information bulletins to the newspapers, serve as an employment bureau for newspaper workers, look after the legislative interests of the publications, represent our newspapers in the sale of political and state advertising, and arrange our convention programs."

The TPA president also stated that "our plans call for activities not alone in the interest of the press of Texas, but for the state in general. Details of a promotion program for Texas will be announced as soon as the central office can complete arrangements with other interested groups and individuals who want to see the great state of Texas grow greater and greater."

Sanford has been with the Okla-

VERNON T. SANFORD

homa organization since August 1, 1934. Prior to then he was manager of the Nebraska Press Association.

He is a native Oklahoman. His newspaper training was received in the Sooner State over a period of 15 years, on the Chickasha Daily Express, Norman Transcript, Anadarko Daily News, and the semi-weekly Cleveland County Democrat - News. He has been a carrier boy, printer's devil, assistant pressman, reporter, classified advertising manager, display advertising manager, and part-owner.

Sanford is a past-president of the Advertising Club of Oklahoma City; the Oklahoma City Chapter of the Southwestern Association of Industrial Editors; and of Newspaper Association Managers. He served for two years as chairman of National Newspaper Week and editor of the NAM Bulletin. He is a member of the board of directors of the Better Business Bureau of Oklahoma City and an honorary member of the board of directors of the Oklahoma City Chamber of Commerce. He is also a member of the Oklahoma City Camera Club, the Midwest Circulation Managers' Assn., the International Council of Industrial Editors, and the Newspaper Advertising Executives Assn.

He belongs to the Legion of Honor of the Order of DeMolay, the Masonic Lodge, and the Methodist Church.

The new Texas manager is a graduate of the University of Oklahoma, with an AB in Journalism; and holds a Master of Arts degree from the University of Missouri. He was awarded a Fellowship by the University of Missouri and was presented with the first Merit Award given to graduates of the University of Oklahoma's school of journalism for accomplishments in their chosen profession.

Mr. and Mrs. Sanford will establish a home in Dallas. They have two children, a daughter Gaye, 17 years; and a son, Sandy, 14.

Changes in Government Farm Plan Seen with Consolidation of Agencies

Farmers of Jones County and the rest of the nation today could look forward to some changes in the government's program of agricultural assistance.

Members of the House of Representatives Agricultural Committee, who held a hearing at Temple Saturday, said flatly that the government farm program, now handled

by many agencies, cannot go on as it has the past several years.

There is a good chance for unification of many of the Department of Agriculture agencies which have overlapping functions.

The committee had become suspicious of Department of Agriculture agencies by the time they held their hearing at Temple.

At every hearing, members said, there had been considerable evidence of agency packing, with the farmers getting up and sounding off for specific agencies.

Chairman Clifford Hope of Kansas, a Republican, said that only in Kansas and in Texas had there been any discussion of farmers accepting government financial aid less than 100 per cent of parity for their products.

The government has now in operation a program which guarantees the farmer 90 per cent of parity on all crops but cotton, where 92 per cent is guaranteed.

Parity is a touchy subject with farmers, the congressmen learned. "We've found a lot of farmers who want guaranteed prices but who do not want any acreage controls. They do not realize that such a program would break the government," Mr. Hope said.

A rancher of Gatesville, Coryell County, N. Foote, took the floor in Temple to ask for 75 per cent of parity.

"I know we cannot have this without acreage controls," Mr. Foote said. "But if we can be guaranteed a fair price which will let us plan ahead I think farmers will accept acreage controls."

In Temple, and at eight other hearings over the nation, the farmers asked that they be allowed to handle their own program without interference from bureau representatives.

Most members of the House committee feel that a long-time farm

program is necessary. Chairman Hope expressed that view.

But a Republican from Pennsylvania, Chester Cross, who brags on his Pennsylvania Dutch constituents at the least opportunity, said he is not sure.

"I think maybe we ought to let the farmers go and they will work out their own problems. We've found farmers depending a great deal on Uncle Sam. But no government program is going to solve the farmers' problems. They'll do it themselves," Mr. Cross said.

Others in the party were Representative Walter Granger of Utah and Representative Abe Goff of Idaho.

Great-grandmother was afraid to go out when she heard a wolf calling.

Great-granddaughter is afraid to go out for fear that when a wolf calls she won't be in.

Brothers Under the Skin.
Poet—"This is an unfair world."
Friend—"How so?"
Poet—"A banker can write a bad poem, and people think nothing of it. But just let a poet try writing a bad check!"

Put an End to Arguments.

"It's rumored around that you and your husband are not getting along so well together."
"Nonsense! Oh, we did have some words and I shot him—but that's as far as it ever went."

Baptist WMS Has Program On Africans

"Peoples of Africa", was the subject for the Royal Service program at the Women's Missionary Society meeting Monday afternoon with all circles meeting at the First Baptist Church. A total of 17 members were present.

Mrs. Delma Shelburne was program chairman. Mrs. I. R. Hutchinson gave the devotional on, "Arise and Shine" using verses from the 59th and 60th chapters of Isaiah. Mrs. Shelburne discussed, "Meet the Africans," as an introduction. "Slave or Freedom?" was the topic which Mrs. John Walton used for a brief talk. Mrs. A. G. Irwin talked concerning, "African Religions." The song, "Hear I Am; Send Me," was sung by the group. The program chairman concluded the service by giving a sketch of the work of the Southern Baptists in Africa.

In a brief business meeting, Mrs. Joe A. Simpson, president, urged that every Baptist family bring canned goods to the church basement by Sunday to be sent to Buckner's Orphanage for Thanksgiving. The canned food may be home-canned or bought. The drive for clothing for needy Europeans will be continued and everyone who has a contribution may bring these to the church kitchen. It was announced that the clothes do not have to be cleaned or mended, as was previously announced.

Next Monday afternoon all circles meet at the church for a mission

study program, "The Holy Spirit in Missions." All members are invited to be present.

American Creed was written William Tyler Page.

Texas Needs More Cotton.

It would not be to the interest of Texas for cotton production to remain at a low level, even though many new crops can be raised. As conditions return to normal, some expanded supplementary crops may have to be sharply reduced. Unless a good market for cotton can be maintained, agricultural income is very likely to decline.—Dallas Times-Herald.

POT-SHOTS FROM McCAULLEY

By GEORGE DARDEN

Visiting in the home of Mr. and Mrs. W. C. Kean were her father, J. W. Smith of Pittsburg, her sister, Mrs. Charles Kisterson and a niece, Ronie Hall.

Abilene was the scene of homecomings galore the past week for three great schools, namely Hardin-Simmons University, Abilene Christian College and McMurry College. Several of our citizens attended the football games and other entertainment afforded by the schools.

John Carter, Hardin-Simmons University, Abilene, student, visited his parents and Mr. and Mrs. Frank Houghton and family over the weekend.

Blood donors from this community were preparing to leave for Rotan Monday to be typed for blood for Tom Price who is seriously ill in a Rotan hospital.

Word has come that M. T. Mason, formerly of this community and who now resides at Comanche, is seriously ill at a hospital in that city.

John Frank Maberry has purchased the Henson Farm consisting of 90 acres. The farm joins the Maberry Farm on the west.

The McCaulley community received rain last week amounting from a quarter-of-an-inch to better than an inch. Milton Webb reported better than an inch at his farm west of town.

Shooting fire works and throwing lighted giant fire crackers on people's front porches is a dangerous business. Such carrying on could cause a home to be burned and other serious complications. Home owners will appreciate you taking your fire works to the "big pasture" or shoot them on our own front porch.

School buildings all over the country have experienced robbers breaking into school buildings the past week. We notice that Girard, Jayton and Clairmont Schools were robbed last week of more than \$300. A few shot gun "slugs" from the guns of citizens or officers would go a long ways into breaking up a gang of sneak thieves.

Rev. C. E. Dick and Mr. and Mrs. A. A. Callaway attended the Baptist convention in Amarillo last week.

Miss Mary Ann McCollum, McMurry, Abilene student was home over the week-end with parents, Mr. and Mrs. Levi McCollum.

Milt Carter, old timer of this community, is in a Rotan hospital for treatment. His condition is considered serious.

Mr. and Mrs. J. Howard Darden and family from Lubbock were visitors in the home of brother and family the George Dardens last Sunday.

Mrs. Flora Mason and Miss Gertie are in Comanche this week at the

bedside of M. T. Mason who is ill. McCaulley still on the boom as far as real estate deals are concerned. Lots of trading and many changes will be made between now and the first of the year.

W. A. (Alf) Hemphill plans to open a new up-to-date Helpy-Selfy Laundry in McCaulley about the first of January. Location will likely be in the drug store building.

There is room in McCaulley for several different kinds of businesses. A mighty good school, three churches and a community you will be proud to live in. Come on over, let George tell you all about it.

Comments—The leaders of Europe are yelling their heads off for loans to keep their people from starving. Yet hundreds of thousands of dollars are being spent by some of these same leaders to stage a wedding for the King and Queen's daughter of England. Any Justice of the peace in West Texas would be glad to marry to royal couple for \$1.50 and all the gifts and money that is being spent for the wedding could go to feed their starving people. It is down right silly for Uncle Sam to send money to feed Europe when so much is being spent on the King's daughter's wedding. West Texans had better keep their money at home for their own daughters who mean a lot more to us than the royal daughter of England.

This Baptist Convention held in Amarillo last week turned out to be a rough and tumble affair, so it seems. One preacher was thrown out of the convention hall for heckling. Such "carrying on" reminds us more of a political convention. We happen to be a Baptist, so we gotta notion that it's no sin to take a few pot-shots at our own denomination especially when their actions reminds up of "child's play." When preachers of all faiths start preaching the Bible and refrain from lambasting the other fellow then the non-believers might become interested in Christianity. Well, anyway, maybe the sky-pilots will have a text next Sunday and if a few hot heads jump on us—well, we have been jumped on before.

Playing Safe.

Mandy—"Mrs. Sanders, I am going to get married. Here am a hundred dollars I done saved out of mah wages. Take it and keep it safe for me."

Mrs. Sanders—"Very well, but why don't you take it with you in you new home?"

Mandy—"Land sakes! Do you think I would trust all dat money around dat strange Nigger?"

Santa Fe Carloadings Up.

Santa Fe System carloadings for the week ending November 1, 1947, were 31,315 compared with 27,910 for the same week in 1946. Cars received from connections totaled 13,305 compared with 13,123 for the same week in 1946. Total cars moved were 44,620 compared with 41,033 for the same week in 1946. Santa Fe handled a total of 44,354 cars in the preceding week of this year.

In spite of the expense and loss of time, the bridegroom should accompany the bride on the honeymoon. It may be the last vacation that he will ever have.

Green Pastures Will Pay Dairy Farmers Returns

Jones County dairy farmers are being cautioned this week by County Agent H. C. Stanley Jr. to avoid the tough winter time feeding conditions now that seems apparent for many of the farmers.

Realizing what the feed situation is likely to be, many dairymen are looking for ways to avoid the high-price slap that seems to be coming.

Stanley says Extension Service dairymen at Texas A. & M. College, looking back over the years they have seen dairy farmers face the same situation, say that a first and wise step will be to see that each pound of feed is used to best advantage. Every dairy herd of any size has some cows that need culling out, because they will not be producing when the feed load is the heaviest.

During the few weeks before frost, Stanley points out, there will be the opportunity to put up more hay and silage, and every pound of good roughage will come in handy this winter. So, between now and frost, a good job of harvesting hay and silage crops is No. 1 on the list of dairy farming chores, the county agent says.

Because of dry weather in this area during September, it was not possible to get enough small grain pastures planted in early September. This should not, however, cancel all plans for planting winter grains, the agent says. The feed situation is such that planting on they are, \$1 spent for small grain pasture should return more than \$16 worth of grazing, Fowlers declares. Only \$50,000 spent between 1920 and 1932 on soybean research has resulted in a total crop value of several billion dollars.

Plan Ahead for Cotton.

Successful cotton farming is becoming more and more a year-round job. Planning ahead for next year's cotton is just as necessary and profitable as planning livestock production on a 12-month basis.—Southern Agriculturist.

James C. Cleveland, Five Months Old, Dies Thursday Morning

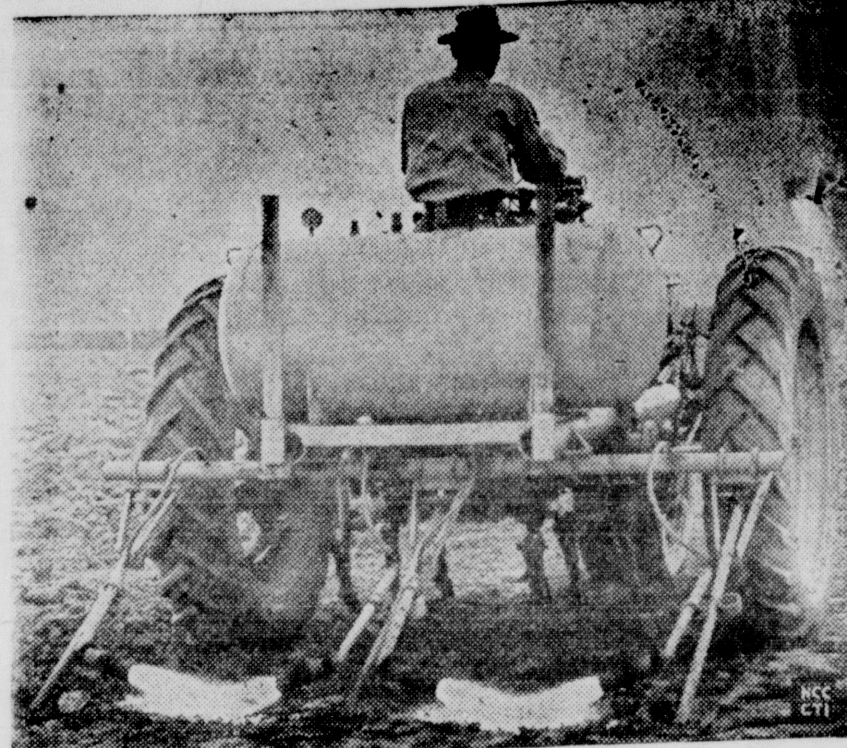

Funeral services were conducted by Dr. Will C. House, pastor of the Hamlin First Methodist Church, Friday afternoon at Barrow Funeral Home. Interment was in the East Cemetery.

James C. Cleveland, five-months old son of Mr. and Mrs. Alfred Cleveland, died in an Abilene hospital at 6:00 o'clock a. m. last Thursday following an illness of one week. Death was attributed to pneumonia.

Mr. and Mrs. Cleveland, operators of the Wagon Wheel Cafe here, moved to Hamlin the first of October. The baby was born in Tucson, Arizona June 4, 1947.

He is survived by his parents; one brother, William, three-year-old; grandparents, Mr. and Mrs. J. P. Bowman of Hamlin and Mrs. Laura Bourdon, Minnesota and Charles Cleveland, Burke, Idaho; two aunts, Misses Doris and Jessie Dean Bowman of Hamlin; two uncles, Felton Bowman of Hamlin and William Bowman of Commerce.

Plans can be trained to dance, crawl, chariots and throw objects many times their own weight.

MECHANIZED cotton farmer, Scurry County, has brought the flame cultivator, which sears cotton's weed enemies and frees farm workers from the laborious task of cleaning out cotton

rows in summer heat. With the harvester, it gives the farmer invaluable assistance during the two peak labor periods of the cotton production cycle—cultivating and harvesting phases.

A LACKEY-JONES PUBLICATION

VOLUME 43
NUMBER

HAMLIN, TEXAS, NOVEMBER 21 NINETEEN HUNDRED
FRIDAY, FORTY-SEVEN

ISSUE 3
NUMBER

Most Farm Products Selling Steady to Moderately Higher Prices Last Week

Most Southwest farm products sold at fairly steady to moderately higher prices last week, according to a report received by The Herald from the Production and Marketing Administration, United States Department of Agriculture.

Unfavorable prospects for next year's winter wheat crop and large export demands still dominated the grain markets. Wheat registered further substantial gains to sell Friday at \$3.11. Other grains held close to last week's levels.

Uneven trends continued to rule

feed markets, with average prices a little higher. Peanut oil and meal strengthened, but shelled peanuts remained dull. Domestic wools moved slower. Less than 15 per cent of domestic offerings sold in an auction sale held on Thursday, November 13. Mohair was slow at uneven prices.

Cotton harvesting and ginning continued active during the week, although cool days and sandstorms retarded progress somewhat in the Northwest Texas and Western Oklahoma. Sales decreased slightly de-

spite net price advances of around \$4 per bale.

Week's cattle sales went largely at steady to stronger prices, with many lots going higher at Wichita and Denver. However, low grade cows at Texas markets moved counter to the trend to sell as much as 50 cents lower at \$8 to \$12 for canners and cutters. These grades brought \$9 to \$12 at Oklahoma City, \$10.50 to \$13 at Wichita, and \$11 to \$14 at Denver. Texas paid \$12 to \$15 for common and medium cows.

Sheep prices held mainly steady to strong for the week but lambs showed some easiness at Oklahoma City, Wichita and Denver. Common and medium lambs sold at \$14 to \$18 at San Antonio, as medium and good grades cashed at \$19 to \$21.50 at Fort Worth, and \$17 to \$21 at Oklahoma City. Denver paid \$24.25 for choice natives.

Hog markets rallied some during the week but butcher classes suffered losses up to 25 to 50 cents at some terminals. Feeder pig prices dropped 50 cents to \$1 at San Antonio and Oklahoma City and \$4.50 at Fort Worth, where top offerings sold at \$20. Closing top butchers ranged from \$24.75 at San Antonio to \$25.50 at Denver.

Turkeys moved to market in a greater volume for the Thanksgiving holiday trade. Prices stayed at close to support levels at most places.

Most Property Signed for Road East of Anson

County Judge Roger Q. Garrett reports this week that good progress is being made on the task of securing needed right-of-way on U. S. Highway 180, from Anson east to the Jones-Shackelford County line. The state is asking for 10 more feet of space and as soon as all deeds are signed and obstructions removed, the State Highway Department will authorize awarding of contracts for new pavement, it was said. Hamlin area residents are looking forward to this needed improvement.

Practically all property owners adjacent to the highway have signed and returned deeds except those in the immediate vicinity of Funtston where there are some special problems to be worked out. Ironing out of all difficulties standing in way of completing the purchases of necessary right of way is receiving special attention of the committee-men.

"The spirit of cooperation landowners have shown on the east end of 180 has been very gratifying and has matched that which made the quick work on the west end of the highway possible," said Judge Garrett. "There has not been a single hitch, some of the landowners have even come to the courthouse to sign deeds or volunteer to help in getting deeds executed."

"A lot of compliments are being received by Anson and Jones County for Highway 180 west of town which was opened to traffic October 13. The traveling public is watching for an early announcement of the awarding of the contracts on the east end. When the job is completed a modern east-west highway will be provided entirely through the county," Garrett pointed out.

Completion of the proposed improvement in Jones County will eliminate the last real bad piece of road on the 180 route between Fort Worth and El Paso.

Mrs. G. R. Bennett's Brother Dies In California Friday

Mrs. Gordon R. Bennett received word Saturday morning that her brother, Roy McElhaney, 49, had died at 9:00 o'clock p. m. Friday following an illness of six weeks.

Mr. Elhaney had been living in Honolulu, Hawaii for the past six years and worked as personnel manager of an electronic plant. Ten days previous to his death he was flown to Oakland, California, his former home.

Final rites for Mr. Elhaney were held in Oakland Monday with burial there. Mrs. Bennett was unable to attend. She had planned to visit her brother shortly after Thanksgiving, and his death was a shock although the family knew he would never be well again.

He is survived by his widow; one daughter, Mrs. J. J. Hauk, Santa Clara, California; two grandchildren; his mother, Mrs. M. V. McElhaney, Ventura, California; two sisters, Mrs. G. R. Bennett and Mrs. A. A. McClaskey, Van Horn; five brothers, Curtis, New Orleans, Louisiana, Clayton, Vallejo, California, W. W. and Rex, Ventura and Leon McElhaney of Santa Paula, California.

John May visited Dr. and Mrs. Frank Johnson at Rotan Sunday.

GI Job Training Program is at Peak

Job training program provided for Hamlin's and other towns World War II veterans by the GI Bill has passed its peak under present laws and conditions, the Veterans Administration believes.

The peak apparently was reached last January when 632,000 veterans were training on-the-job. Steady decreases since then cut the total to 564,000 by September 30 of this year. VA said principal factors in the declines were the ceilings on income plus subsistence allowance and the two-year limits on all job-training, other than apprenticeship training.

Veterans training on-the-job in the Dallas Branch Area as of September 30 included for Texas was 41,000.

Mrs. W. R. Johnson of Abilene visited her parents, Mr. and Mrs. W. B. Boyd Jr. Sunday.

Dr. Fred Fisher Concludes Talks At First Baptist

Dr. Fred L. Fisher will conclude the series of meetings at the Hamlin First Baptist Church tonight (Friday) on "What Baptists Believe."

Large crowds have been attending these service every night this week. Monday night the Training Union was honored; Tuesday night, the Women's Missionary Society; Wednesday, the Sunday School department; Thursday night, the men of the church and tonight (Friday) will be "Everybody's Night." A social hour will be enjoyed in the church basement at the close of the service.

Dr. Fisher, professor of Bible at Hardin-Simmons University, Abilene, is a very impressive speaker.

Mr. and Mrs. A. G. Miller attended the burial services for Mrs. Bill Johnson at Munday Sunday.

News Briefs From Haskell County

Haskell merchants and business concerns are being asked by the Chamber of Commerce to sponsor a Christmas lighting in the business section. Grand jurors for the 39th District Court were called into session again this week. Dean Bartlett, a Haskell girl enrolled at ACC, Abilene, has been elected as vice-president of the Dormitory Council. Haskell fans were treated to an all-grill football game there last week, the Papooses beating the Squaws. Approximately 4,000 people attended the Armistice Day celebration in Rule. Ruth Allen is football sweetheart of the Rule Bobcats, and was presented between halves of the Rule-Rochester game. Rochester won 26-12. Haskell ministers reorganized their ministerial Alliance this week with Rev. J. H. McClendon re-elected president. A small fire did several \$100's damage to a Haskell Piggly Wiggly last Thursday.

TRUE STORIES of WEST TEXAS

(By N. H. Kincaid, 2618 Hictory St., Abilene, Texas—Copyrighted)

"THE MISSING FENCE POSTS"

Bill Elliott, top cowhand for the Spurs, was numb with cold as he again pulled up before the half dugout. As he tried to let himself down from the bumpy in the teeth of the shrieking wind, Joe Stokes, his boss, hurried out.

"Here, Bill," he said quietly, "I'll take over now. There's a pot of hot coffee waiting for you," and helping him through the doorway Joe then turned back to the wood-studded buggy. Pulling an axe out from in front of the seat and the posts from under it, Joe began splitting stove wood.

Inside the dugout, Bill gulped the hot, black coffee down that was handed him and felt the numbness begin to recede from his body. He wondered how Joe had got it so hot; the stove was certainly sending out little enough heat.

For a moment he had forgotten the woman and her three children; they had drawn back, allowing him full possession of the meager stove. But as the door burst open and Joe stumbled in with a load of wood, her gasp jerked him back to the present. The little tin cracker box stove began radiating heat again and Bill noticed the tears of gratitude slipping quietly down her face. Why, she was young, too young to be alone on the Plains with three little children. And eating her heart out with fear of what might have happened to her husband. Certainly there was no food on those shelves and the cow chips, their only source of heat, had been buried under six inches of snow last night.

That had been the thing that had sent him out again directly after he and Joe had stumbled in on them a while back. This was the first part of December, 1890, and they had been on a business trip to Amarillo for the Spurs, when the blizzard struck. This lonely little half dugout, not far from Floydada and just outside the Matador's lone fence, had seemed a good place to warm up and drink a cup of coffee.

As Bill Elliott and his boss, Joe Stokes, drove on their way again, Bill swallowed hard as he suddenly thought of the source of that firewood. Being a cattleman himself, he knew what the Matadors could do should the discover the miscreant—and the missing fence posts.

(Note—W. J. Elliott never mentioned this story until many years later when he recounted it in his book, The Spurs.)

Mrs. P. D. Harkins visited her parents, Mr. and Mrs. J. R. McDonald, in Wichita Falls last week.

Mrs. S. D. McMahon and Miss Pearl Hudson were in Dallas Thursday buying merchandise for their jewelry store and dress shop.

Baptist Revival Meeting Begins At Boyd Chapel

Rev. V. D. Walters, pastor, will do the preaching for a revival meeting at the Boyd Chapel Baptist Church beginning Sunday, November 23 and closing the following Sunday.

Special musical numbers are being arranged under the leadership of Theron Bingham, church song director. Miss Wanda Faye Bingham will be the pianist.

The church has recently decided to purchase new song books and it also plans to repair the building soon.

Cutting Out Stews On Army Menus Now

Area Army veterans and other branch veterans will be glad to learn that stews are about to appear less frequently on Army menus. Fort Sam Houston's Food Service School has a new meat-cutting class learning among other things, how to cut up beef carcasses in such a way that not over 15 per cent will necessarily end up as stew or hamburger.

Cost of training these specialists

the report stated is justified by the fact that approximately 40 to 50 per cent of the cost of feeding a soldier is spent for meat, fish and poultry items in his diet.

Little Miss Suzanne Dana of Amarillo is here for a visit with her aunt, Mrs. John H. Osteen and family.

Dora Culbertson, Local Girl, Pledges TSCW Literary Club

Dora Joyce Culbertson, daughter of Mr. and Mrs. J. L. Culbertson of Hamlin, has finished the informal initiation period and is now an active member of Alice Freeman Palmer literary and social club at the Texas State College for Women at Denton.

Alice Freeman Palmer is one of the 11 clubs on the campus, and the total number of girls pledged by the organizations is 279.

Chores imposed upon the pledges

during the initiation period included the usual "maid service" for old members, carrying loaded suitcases to classes, and counting all the steps on the campus. Some of the clubs required pledges to appear in class without make-up and wearing large ribbons, corsages and signs.

The purpose of the clubs is to stimulate interest in literature, art and music, to promote school activities for members and to encourage the achievement of high scholastic standing.

Dora Joyce is a sophomore and is majoring in Foods and Nutrition.

Dr. W. C. House Is Appointed Head Of Committee at Meet

Dr. Will C. House, pastor of the
Hamlin First Methodist Church,
was named to head the License to
Preach committee at the Abilene
district conference last Thursday at
Grace Methodist Church in Abilene.
District conference will meet with
the Rotan Methodist Church next
year.

Those attending from the local
church were: Dr. House, L. H. Mc-
Eride, Mrs. E. M. Wilson, Gordon
Bennett and Ed Bailey.

Here From Moody.

Mrs. W. C. Calhoun of Moody
spent last week-end with her sister,
Mrs. H. M. Hooper. Mrs. Hooper
and Mr. and Mrs. E. R. Hamlin ac-
companied Mrs. Calhoun to her
home in Moody Armistice Day and
Mrs. L. P. Cuzzens returned to Ham-
lin with her daughter for a visit.

To Corpus Christi.

Mrs. S. H. McPherson and daugh-
ter, Sheila LaRue left Tuesday after
spending 10 days with their grand-
mother, Mrs. Dan Stephens and
family. Mr. McPherson has been
transferred from the Abilene office
of the Commercial Credit Associa-
tion to Corpus Christi.

Mr. and Mrs. J. D. Barnes Jr. and
son, Doyle, of Lubbock visited his
sister, Mrs. Davis McDonald of
Greenville here in the home of his
parents last week-end.

Overseas Gifts Must Meet Postal Rulings

If you are planning to mail
Christmas gift packages to relatives
or friends residing outside the Uni-
ted States and are not familiar with
the regulations governing such mail-
ings, it would be wise for you to
get in touch with the Dallas office
of the U. S. Department of Com-
merce. The Times has been asked
to announce to Jones County folks

Complete information on regula-
tions controlling the mailing of gift
packages to foreign countries is avail-
able without charge at the Com-
merce Department offices located at
1114 Commerce Street, Dallas, Ray
L. Miller, regional director, has an-
nounced.

According to Mr. Miller, it is nec-
essary, in addition to conforming
with regulations of the government
of the particular country to which
a gift is sent, that shipper also ob-
serve the U. S. export control re-
strictions as well as the U. S. postal
regulations.

Visits in Corpus Christi.

Mrs. S. D. McMahon and Mrs.
Carl Young accompanied Mrs. L. S.
Sparks to her home at Mathis last
Monday and also visited in Corpus
Christi before returning to Hamlin
Thursday.

A. J. Malouf of Lubbock spent
Monday night with Mr. and Mrs.
George Malouf.

Dr. and Mrs. J. W. McCrary and
Sue were visiting in Dallas Armistice
Day and Wednesday of last week.

Slight Advance In Cotton Price Tabbed Last Week

Jones County and other area
producers were encouraged by the
cotton price advances of the past
week, according to the Department
of Agriculture's release to The
Times through the Production and
Marketing Administration.

Spot markets of the region were
less active, the report shows. Farm-
ers were not selling as freely as
during recent weeks. Mills contin-
ued to buy cotton, but in less volume
than last week.

Demand for textiles continued
strong with prices higher for any
goods that could be delivered this
year.

Picking and ginning continued to
make fair progress in the central
and eastern sections of the Cotton
Belt, but heavy rains in these areas
retarded harvesting to some extent.
In the southwest and far west har-
vesting continued to make rapid
progress. Frost was reported in
Northwest Texas. Harvesting is gen-
erally about completed in the south-
ern sections of the belt and has
apparently passed the peak in most
of the northern sections.

Prices for middling 15-16-inch
cotton in the 10 spot markets aver-
aged 32.40 cents per pound on Thurs-
day, November 6, as compared with
32.25 a week earlier and 27.95 cents
for the corresponding Thursday a
year ago. The average price for the
week ended Wednesday was 32.17
cents per pound as compared with
32.56 for the previous week. Spot
prices lost ground during the early
part of the week, but strengthened
on Wednesday when advances a
little more than offset the earlier
decline. Spot prices at the end of
the week continued at about 25
points below December futures.

Food Conservation Should Not Hamper Body Nourishment

Commenting on the food con-
servation program now being stressed
throughout the nation, Dr. George
W. Cox, state health officer, this
week emphasized the importance of
including the proper food requisites
in the daily diet, as being important
to the maintenance of health.

"Food conservation is an absolute
necessity and all Texans are eager
to assist in the program. But elim-
inating needful basic foods will only
result in under-nourishment and
illness, which can be avoided by ob-
serving the Texas food standard in
daily meals," Dr. Cox said. "This
food standard will enable Texans to
utilize available foods, eliminate
waste, cooperate in conserving food
and spend their food dollar wisely.

The Texas food standard, recom-
mended to Jones County folks by
Dr. Cox, provides all necessary food
elements, and for each individual
includes daily servings of: One pint
to one quart of milk, one egg or
substitute, one meat serving, poultry
or fish, one serving of potatoes, one
serving of green or yellow vegeta-
bles, one serving of citrus fruit or
tomatoes, one serving of other fruit,
one serving of whole grain products,
other enriched cereals or breads,
small amount of butter or margarine
with vitamins added, some sweets or
desserts in moderate quantities.

"Good nutrition is based upon the
observance of good food habits, prac-
ticed every day," Dr. Cox declared.

Health Officer Says Pyorrhea in Early Stage Can Be Cured

Contrary to the popular belief
that pyorrhea is incurable, this is
only true in the most advanced
cases, Jones Countians are inform-
ed. Dr. George W. Cox, state health
officer, advises those persons who
even suspect the presence of pyor-
rhea to seek an early diagnosis
from their dentist so that proper
treatment can be instituted while
the disease is still curable.

"Early detection and proper treat-
ment of pyorrhea represent the for-
mula for a successful cure. This
means that the dentist must have
an opportunity to discover the pres-
ence of the disease at the earliest
possible moment since the symptoms
are often so vague that the patient
is unaware of its existence," Dr. Cox
said. "Regular visits to the family
dentist are therefore extremely im-
portant."

The treatment of pyorrhea is not
an involved procedure. In the aver-
age early case one of the main
therapeutic features is the proper
hygienic care of teeth and gums as
outlined by any reputable dentist.
Carelessness regarding mouth hy-

giene is usually the basic cause for
the condition.

The family dentist can usually re-
move the cause of the trouble, Dr.
Cox said, and when this has been
done, intelligent routine home care
of the mouth will effect a cure in
the majority of early cases.

Children playing with matches
cause 26,000 fires every year in the
United States.

FORD Service makes FORDS purr-r-r

...and keeps your
pocketbook happy
4 ways:

1. Ford-trained Mechanics

save money because
they know Fords best
—quickly make your
Ford like new again.

2. Genuine Ford Parts

are made right, fit
right and last longer.
And fewer parts to
buy means money
saved on replace-
ments.

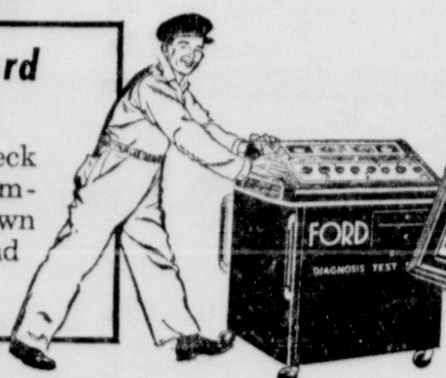

3. Factory-approved Methods

make pocketbooks happy,
because they assure you a
better, faster job.

4. Special Ford Equipment

is designed to check
Ford work com-
pletely, to cut down
future repairs, and
that saves, too.

Your Ford Dealer Knows Fords Best

BOYCE HOUSE

"Gives You Texas"

As Col. Ray Leeman sits, smiling and alert, at his desk in San Antonio, he has at his finger-tips the pulse-beat of an empire for 20 years, there probably has been launched or, at least fostered by the South Texas Chamber of Commerce, Leeman aided in founding the 55-county organization in 1927 and has been executive head during its entire history.

Leeman has had a colorful career—veteran of both World Wars, race track driver, poet, pioneer of the automobile industry, civic leader.

He drove in the Gidden Tour, endurance contest for cars over the highways (such as they were) and he raced on Oklahoma dirt tracks. His car crashed and a piece of rail-

ing was embedded in the daredevil's hip. Leeman was born in Dallas in 1880, attended Castle Heights Military Academy in Tennessee and the University of Texas, Austin, where he was baritone in the glee club quartet. He became advertising manager for the Overland car, wrote the first full-page ad in auto history (it appeared in the Fort Worth Star-Telegram.) Invaded the middle West where he launched a new automobile, the Henderson, with such fanfare it marked a publicity "high" in the industry's early annals.

The scene was Indianapolis, the day before the races—in fact, rivals said he practically "stole" the Speedway classic to exploit his new car. Mayor Lou Shank, famed for his fight on the "high cost of living", poured a sack of potatoes over the "prow", then scrawled the name on the hood with a pencil, five feet long. The machine then was to be driven into the lobby of a nearby hotel but the designer at the wheel, caught Leeman's eye and whispered "I can't start the blankety-blank thing."

Quick-thinking Leeman stepped

back into the crowd and yelled, "Wait! Don't start it! Boys, let's roller in to the hotel." With a whoop, a dozen men put their shoulders to the car and shoved it down the street. Next day, the papers said the crowd was so enthusiastic it pushed the new machine in triumph into the hotel lobby.

Leeman enlisted in World War I, attended First Officers' Training Camp at Leon Springs (San Antonio), was a Lt. and later a captain in the glorious 90th Division, fighting in the St. Mihiel and Meuse-Argonne offensives, then serving in the army of occupation in Germany. He retained his interest in national preparedness, was a reserve officer, taking part in maneuvers each year and in World War II, was stationed at Fort Sam Houston, with the rank of lieutenant colonel.

Back in 1919, just out of the Army Leeman returned to his hometown of Mineral Wells. A friend, rich from oil, bought a drug store and gave the veteran a half interest to run it. After a year they sold out, and Leeman became the manager of the Chamber of Commerce there. He gained national recognition by enrolling 600 members and raising \$35,000 for an advertising campaign. He burst into verse about the marvelous mineral water—in fact, Leeman writes the rhymes on his Christmas Cards and composed a ballad, "The Checkered Flag," about a speedway racer.

The West Texas Chamber of Commerce was going to hold a convention in Mineral Wells and Leeman got busy and an auditorium seating 5,000, was built. A few days before the convention, the city's biggest hotel burned down but all the 50,000 visitors had a place to sleep.

So impressed was the WTCC that the go-getter was made assistant manager in charge of the San Antonio office. He conceived the idea of a South Texas organization, helped create it and has been at the helm ever since.

Accomplishments of the STCC are too numerous and well-known for mention here—but the record is understandable when one considers the picturesque, achievement-studded background of its sparkplug, Col. Ray Leeman.

Wilburn Hudson Is Out of Navy

Wilburn Hudson, son of Mr. and Mrs. Bill Hudson of Abilene, has been honorably discharged from the U. S. Navy after almost two years service.

He visited relatives in Hamlin last Sunday.

Mr. and Mrs. Woodrow Crawford have returned from their wedding trip to Fort Worth and Houston and he is now employed at McCoy Brothers Service Station and Upholstery Shop.

"They're the talk of the coffee stops!"

"Try that seat. It's fully adjustable. They tell me it's got 12 inches more foot room, and eight inches more seating space, too."

"Take a look at that cab, all one piece. Not a rivet or bolt. There's 22% greater visibility—and even more with those new rear-corner windows!"

"You ought to get a look at that new frame. It's REALLY built!"

"This beats any truck I've ever seen! Why, it's built to do ANY job!"

"Have you seen that new Chevrolet truck, Mac? It's the truck with Advance Design!"

"I took a look under the hood and, boy, it's still got that valve-in-head engine! It does more work on less gas than any other engine of its size!"

*Fresh-air heating and ventilating system optional at extra cost.

CHEVROLET Choose Chevrolet trucks for Transportation Unlimited! There's a new Advance-Design Chevrolet truck to meet your hauling or delivery requirements—107 models and eight wheelbases. See them at our showroom . . . see the cab that "breathes."
